Containing the Freshest Advices, Foreign and Domestick.

ANNAPOLIS, May 27.

To his Excellency HORATIO SHARPE, Esq; Governor and Commander in Chief in and over the Province of MARYLAND,

The humble ADDRESS of the House of DELEGATES.

May it please your Excellency,

BY a Report, made by a Committee of this House, with a Copy of a Letter and Depositions, hereunto annexed, it is apparent that some Check is necessary to be given to the Papists within this Province, and at this Time it seems more so, as the *French* are encroaching on all his Majesty's Territories on this Continent, and spiriting up the *Indians* to make Incursions and commit Hostilities on his Majesty's Subjects.

We therefore hope, that your Excellency will be pleased to Order, that an exact Enquiry may be made into the Matter contained in the Depositions of Serjeant *Willis*, *John Hamwood*, and *William Swallow*, that the Rioters who obstructed his Majesty's Levies, and used such disloyal and traiterous Language, may be punished according to Law.

His Excellency the Governor communicated the following Message, *viz.*

Gentlemen of the Lower House of Assembly,

THAT some Offences, of the Nature mentioned in your Yesterday's Address, had been committed in St. Mary's County, I was informed some Weeks since, and, immediately thereupon, took such Steps as appeared necessary for bringing the Offenders to condign Punishment; two of them, I learn have been taken, and have recognized for their Appearance at the next Assizes: As the others, of whom one is a Roman Catholick, and charged as Principal in this Affair, have disappeared, I could wish to be impowered to offer a Bounty or Reward, for the more ready Discovery of them, and you may be assured it will be my constant Care to suppress, as much as possible, any such Disturbances, whenever they shall happen. HORATIO SHARPE.

May 30.

To his Excellency HORATIO SHARPE, Esq; Governor and Commander in Chief in and over the Province of MARYLAND,

The humble ADDRESS of the House of DELEGATES.

May it please your Excellency,

BY the Report of a Committee of this House hereunto anexed, we find, that the Arms are in bad Order, through Neglect of the Armourer; wherefore we humbly conceive, that some other, who would execute his Duty with more Care, should be placed in his Room, that the Arms may be kept in more effectual Order for Service.

As there is now in the Hands of the Treasurers of this Province, Sterling Money for purchasing Arms and Ammunition for Defence of the same, we submit it to your Excellency, whether at this Time, when the *French* and their allied *Indians*, are making Encroachments on our Frontiers, it may not be expedient to send for such Arms and Ammunition for that Money, as may be convenient to send to the Western Limits of this Province, in Case of Need.

His Excellency communicated the following Message, *viz.*

Gentlemen of the Lower House of Assembly,

THE *Armourer, of whose Negligence you are pleased to complain, pleads to me, in Excuse of his seeming Fault, and Defect of Duty, his strict Obedience to the Orders I some Time since thought proper to give, That nothing should divert him from examining and cleaning those of the Arms lately imported, which had by some Accident fallen into the Water, before they were delivered into his Custody: This Service, must, I believe, have engaged him for some Months past; and he hopes his Excuse will meet with a favourable Hearing, as he will always endeavour to give general Satisfaction, by his future Care and Diligence in the Execution of his Office.*

Your Request that I will send for some Ammunition, I will carefully comply with; and should be glad to be impowered to order also an additional Number of Arms, but cannot attempt that, at this Time, unless you will revive the Law for raising a Sum of Money for purchasing them; the Fund established some Years since for that Purpose being reduced very low, and, as I am informed, almost exhausted.

HORATIO SHARPE.

LISBON, March 5.

THE Bahia Fleet after having been detain'd a long Time in our Port by contrary Winds, is at length sail'd: It consists of ten Merchant Ships, convoy'd by two Men of War; one of which carries Don Joseph de Soto Mayor, whom the King has appointed Governor of Princes Island, and the Island of St. Thomas.

Paris, March 25. The Council of State has issued an Arret suppressing the Remonstrances of the Parliaments of Rouen and Thoulouse. This Step is thought to be the Effect of the Letters sent to the King by the Bishops of Languedoc, complaining of the Conduct of the Parliaments in general, and that of Thoulouse in particular; which Letter was greatly approved of at Court. M. du Fosse, Member of the Rouen Parliament, for whose Discharge that Body interested themselves very warmly, is ordered to continue at Versailles till further Orders. The Chatelet are employed about their Remonstrances, the Curates in refusing the Sacraments, and the Curiosity of the Publick about the one and the other.

Last Tuesday about Two in the Afternoon, the Alarm was given of an Insurrection in this City, and the Horse and Foot Guards beat to Arms. But it proved to be only the Evasion of a Number of Persons committed to Prison by the Royal Chamber, and on Account of Sickness confined in the strong Room of the Hotel Dieu. The poor Wretches, whom Misery prompted to this Attempt, were so lucky as to escape, and notwithstanding the strictest Search that could be made, six only were retaken.

Genoa, March 14. The Coast of Catalonia is so infested by the Barbary Corsairs, that none but Ships of a certain Force dare put to Sea. The Packet Boat that sails every Week from Barcelona for Italy, cannot stir out on this Account; so that they are obliged to send the Mail by Land.

Moscow, March 13. At a grand Council held a few Days ago, it was resolved to augment the Army canton'd in the Frontiers, with several Thousand Men; to cause some additional Bodies of Cossacks and Irregulars to advance to the Western Provinces; and to fit out the Men of War and Gallies. These Resolutions are said to be occasioned by the Preparations which a certain Power has been making for, some Time on the Frontiers of Courland.

Dantzick, March 20. The King of Prussia has established a Company at Berlin, to be called the Mining Company. Several rich Merchants and some Jews are named as Members; and they have obtained an exclusive Grant for twenty Years, to work all Mines, Minerals, &c. as well as an entire Exemption from all Duties and Taxes whatsoever.

Milan, March 19. A Farmer in this Neighbourhood lately lodged 10,000 Crowns with the Curate of the Parish, thinking his Money would be safe in the holy Man's Possession; but last Wednesday Night eight Fellows broke into the House, bound the Curate after a stout Resistance, and carried off the Farmer's Money, and also the Curate's.

Hague, March 28. The French Ambassador and the British Minister have been separately in Conference this Week with the Deputies of the States General on the Subjects of the Works at Dunkirk, about which the Publick reason very differently.

Vienna, March 23. *The Publick, at length, calling to mind the Improbability of a Match betwixt Archduke Joseph and a Princess of Portugal, from some political Considerations relating to the Succession to the Crown of that Kingdom, are very positive, that a Marriage is on Foot betwixt his Highness and the third Daughter of the late Emperor Charles VII.*

Hamburgh, March 30. *Our Politicians have at present their Hands and Heads full; they begin to suspect that the great Corps of Danish Troops, which are to assemble this Summer in Holstein, will not prove mere Troops of Parade. What gives an Air of Probability to this Conjecture, are the Orders lately given for repairing the Fortifications of Koningsberg, Memel, and Pillau, and raising vast Magazines for the Use of the Prussian Troops that are to march thither. The Forces in Silesia are already in Motion.*

Paris, March 30. *The Agents of the Clergy have obtained Arrets from the Council annulling all the Proceedings of the Parliaments of Provence, Languedoc, and Guienne. The poor People in the Cevennes are in a dismal Situation; the Frigates from Brest and Rochefort are actually sailed for the Mediterranean, where they will be joined by the great Armament from Toulon.*

Hague, April 3. *We are informed by our last Letters from Brussels, that the two Princes Corsini, who have been there for about two Months, are set out from thence for Liege.*

Cologne, April 2. *We learn from Ruremonde, that Mr. Collouick, lately died there in the 107th Year of his Age. This remarkable Person was a Captain of Invalids, and a Native of Brussels; he entered very early into the Service, and obtained a Pair of Colours in 1680; at the Siege of Vienna in 1683, he had the Misfortune to be taken Prisoner in a Sally, and sold to a Commissary of Provisions, who employed him sometimes to keep his Camels, and then sold him to a Farmer, who carried him on the other Side the Black Sea; there he suffered a miserable Captivity for 20 Years, being so ill treated, that by the Advice of his Master's Brother he took the Advantage of a Caravan that was going to Mecca, made his Escape, and fled as far as Constantinople; but being informed that his Master was come thither in Pursuit of him, he judg'd it best, to avoid a shameful Death, to submit to his Mercy, as a Specimen of which he received 300 Strokes upon the Soles of his Feet, dragged on 14 Years more in the same sad State of Life, when he was sold to a Horse Jockey, who carried him to Temeswaer, which gave him an Opportunity of acquainting General Wallis with his Condition, who took Care to have him ransomed. At the Age of Fourscore and one he married a Widow, by whom he has left a Son and Daughter. His Health was tolerable, and his Understanding clear to the last Moment of his Life.*

Hambourg, March 29. The Syndick Klefeger, who happily adjusted the Differences between the Regency of this City and the Court of Spain, by which our Trade was opened again with that Kingdom, and who went afterwards from Madrid to execute a private Commission at the Court of Versailles, returned here Yesterday.

Utrecht, April 2. The Burgomasters and Council of this City have, by an Ordonnance issued for that Purpose, strictly forbid all the Inhabitants within their Jurisdiction, from setting up any Kind of Lottery whatsoever, or from being concerned in any Foreign Lotteries, except those of the Generality, under severe Pains and Penalties.

Paris A-la-main, April 7. There is to be seen at the Hotel of Monaco, at Versailles, an Extraordinary Piece of Mechanism. It is the Figure of a Man, mounted upon a Tun, as large as life, and painted Flesh Colour. An Organist has made this Figure pronounce a considerable Number of Words, name all the Letters in the Alphabet, the Months of the Year, and to wish a good Day to all the Company, very distinctly. In short, it is the most extraordinary Piece of Art of its Kind that ever was heard of. All the Court has seen it with Admiration. The Inventor sets this Machine in Motion by a Pair of Bellows and Cylinder.

There seems to have been no Foundation for the Reports which have been spread of an approaching Accommodation between the Court and the Parliament, and the Publick is silent in regard to the Chatelet, every Thing being done there with so much Secrecy that nothing transpires. 'Tis however known that the Lieutenant Civil upon his Return from Versailles again reported the Orders of the Court for erasing out of the Register every Thing that has been hitherto done concerning the Refusal of the Sacraments, and that the Members should acknowledge the Royal Chamber. No Body knows what may be the Consequence.

Berlin, March 30. *We learn from Halle, that last Thursday Night twenty-three of the principal Houses in the Village of Beensen, were consumed by Fire.*

Hanover, April 1. *The Distemper among the Horned Cattle, continues to rage in several Places of this Neighbourhood.*

Lisbon, March 13. The great Inconveniences which the Inhabitants of the Brazils used to suffer by being obliged to appeal to the Court of Justice at Lisbon for a final Decision of several Causes, have induced his Majesty to establish a Court at St. Sebastian, where all Law Suits are to be determined for the future without Appeal.

Modena, April 3. It is said, that two or three new Regiments will speedily be raised to augment the Forces of this Dutchy.

Berlin, April 13. Last Thursday a Fire happened by the Carelessness of an old Woman, at Busdorff, which consumed twelve Dwelling-Houses, the Church, and several Stables, Cow-Houses, &c.

Pontarlier, April 8. A Fire broke out here the 4th Instant, and, in Spight of all the Methods that could be made Use of to extinguish it, continued burning three Days. Thirty Houses in the Suburb of St. Peter, and eight in the High Street, were entirely consumed, together with the Tower upon the Ramparts, five other publick Buildings, and the Convent of the Capuchins.

Hague, April 15. Letters from Italy bring Advice of the Death of Don Emanuel Pinto, Grand-Master of Malta, in the 81st Year of his Age.

Moscow, March 14. *The Report of the Great Princess being big with Child, is in a Manner confirmed, and it is expected the same will shortly be declared at Court; but this will not hinder her Imperial Majesty's Return to Petersburgh, in the Month of May next.*

Constantinople, March 16. *In the Night beween the 10th and 11th Instant, there was a very great Fire in the Armenian Quarter, which burnt from Twelve at Night to Six in the Morning: The Number of Houses consumed are not yet certain, but is very considerable. The Grand Signior and Vizir attended at it with great Assiduity.*

Paris A-La-Main, April 19. *Last Monday the King sent for the Automaton lately mentioned, that pronounces several Words very distinctly, to examine the Machinery in the Inside; and satisfied himself that there was no Imposition. His Majesty seemed greatly pleased with its Simplicity.*

LONDON.

April 5. As for the late Rumours from the Cevennes, which you want to be clearly informed of, I can only say, that some Acts of Severity have been exercised against the Protestants in those Parts; but you must not suppose that about 50,000 Troops have been lately assembled in Languedoc, Provence and Dauphiny, meerly to worry that unfortunate People, whose only Crime is Non Conformity to the Religion of their Country. The Troops are to rendezvous there with another View, and in the mean Time furious Bigots employ them to make Converts, for want of better Arguments to convince Dissenters; notwithstanding Experience has always shewn, that Force produces only outward Conformity, but never inward Conviction.

April 6. Two Men of War are ordered to join the Sloops of War appointed to go to the West-Indies, for a further Protection of the British Settlements in those Parts.

We are desired to assure the Publick, that the Marriage Act, which commenced on the 25th of March last, requires nothing more for the due Solemnization of Marriage than what was required before by the Rubricks and Canons of the Church, excepting that Banns are hereafter to be published only upon Sundays. And the Proof and Evidences of Marriages will, by the said Act, be rendered much more easy and certain than before.

Last Monday two Gentlemen in a Post Chaise coming from Gravesend, were robbed by a single Highwayman, near New Cross Turnpike. They were coming to Town to give Information of a Person they had seized on Board a Ship for enlisting Men for the King of France; three of which Men they also took from on board.

We are credibly informed, that divers Persons, who, during the late Infatuation, were married at the Fleet and May Fair, and who are now apprised of the many and great Inconveniences that may attend themselves, their Children, and Descendants, should such their irregular Marriages be hereafter called in Question, have since the 25th of March been married over again in their own Parish Churches, and been regularly registered there, pursuant to the Directions of the late Act of Parliament, for the better preventing clandestine Marriages; and it is not doubted, but when People are made sensible that (notwithstanding the various Reports that have prevailed with Regard to the Difficulty and Expence of getting married, either by Banns or Licence) they may be married either Way with as little Trouble, and at the same Expence, as heretofore, that the Clamour which has been raised against the Marriage Bill will be at an End.

Last Tuesday 219,000 Ounces of Silver Coin was entered at the Custom-House, by the United East-India Company, for the East-Indies.

Last Monday in the Evening, a Captain of an outward bound New-York Ship, and a Companion of his, in a Post Chaise, were robbed on Blackheath by a single Highwayman, who took from the Captain Ten Guineas, and the other about Fifty Shillings.

April 7. Letters from Rome of the 12th of March advise, that during the preceding Months, frequent Congregations of Cardinals were held, and the Result of their Deliberations regularly imparted to the Pretender; but the Subject of them does not yet transpire in Publick.

They write from Genoa, that as the People talk very much about the Affairs of Corsica, some giving the Island to one Power, and some to another, and others thinking it destined for a certain Prince, who, of late, has been almost quite forgotten in the World; the Senate has therefore forbid such Discourse on Pain of corporal Punishment.

According to Advices from Paris, the Count de la Galissoniere is appointed Commandant of the Squadron equipped at Toulon; which Circumstance they think sufficient to invalidate the Report of its going to be disarm'd. They add, they wait impatiently for Intelligence from the East-Indies, especially concerning the Cession of Dekan, or at least Part of that Country, to the India Company, as it is a very large Region, whose Revenues amount to several Millions of Rupees.

There

There is Advice from Lisbon, of the Arrival there of the Maragnan Fleet, consisting of six Merchant-men, under the Convoy of a Man of War, after a Passage of above 100 Days.

We have certain Advices from Virginia, that the General Assembly met there on the 14th of February last, and was prorogued on the 23d of the same Month, after having unanimously passed an Act for raising Ten Thousand Pounds. This Money is ordered to be properly applied towards the Support of his Majesty's Rights in the interior Parts of America. It is expected, the other Colonies will follow the Example of this loyal People, on a due Consideration of their Duty to his Majesty, and of their own Welfare.

Saturday Morning General Wall, who has resided here several Years on the Part of the Court of Spain, set out for Madrid, being appointed, it is said, to succeed Don Carjaval de Lancastre, who died a few Days since, as Prime Minister.

Petitions are already talked of to be presented to the Hon. House of Commons, complaining of undue Elections for Wotton Basset, Wells, Abingdon, Reading, St. Edmund's Bury, Colchester, Salisbury, &c.

According to a private Letter from Switzerland, an ingenious Optician in that Country has made a Telescope, which is said to be no longer than a common Picktooth-Case, and yet magnifies to so great a Degree, that the Satellites of Jupiter and Saturn are clearly distinguished by it.

Since the Conferences at Abo have been suspended, the Swedish Government has thought fit to publish an Edict, importing, among other Things, 'That as nothing had yet been decided in the Negociation for 'settling the Limits of Finland, with Respect to the Territories whose 'Revenues were sequestered, the King being ever attentive to perform 'his Engagements, orders that strict Enquiry shall be made into the 'Conduct of the Royal Officers, who may have exacted Contributions 'from the said Territories; and if it appear that those Officers have 'been rapacious enough to do it (which, however, his Majesty can 'hardly believe) the Money so levied shall be deposited in the Hands of 'a third Party.' The King moreover declares in the same Edict, that such as shall transgress in this Point, shall be severely punished, and turned out of their Posts.

M. Charles Gabriel de Pestel de Levis de Tubieres de Caylus, Bishop of Auxerre, and Senior Bishop of France, died the 3d Instant, aged 85, regretted by all the Adversaries of the Bull Unigenitus. He was ordained to the See of Auxerre the 1st of March 1705, and, being no Courtier nor Friend to the Jesuits, was never translated to a richer Bishoprick. On his Death-bed, just before he received the Sacrament, he renewed his Appeal to a General Council against the Errors contained in the said Bull.

The Utrecht Gazette gives us the following Intelligence, dated London, April 12.

'It is confirmed that the Convention on the Tapis between the English 'and French East India Companies is very far advanced, and that 'there is Room to expect it will soon be concluded. It is certain that 'both Parties are agreed about the principal Articles of the Neutrality 'to be hereafter observed in the Quarrels between the Nabobs, or Indian 'Princes. The Courier that the Duke de Mirepoix dispatched to Ver'sailles three Weeks ago on this Occasion, is come back; and this Day, 'his Excellency sends away another Courier, and it is reckoned he will 'not return without a decisive Answer.'

April 25. *We hear that at an Election for a Borough a few Days since, five Burgesses going to poll for a Canditate, had the Oath of Bribery tendered to them, but they desired to be excused from taking it, and being asked the Reason for their Refusal, they owned they had received one 50 Guineas, another 40 Guineas, &c. to vote for a Gentleman they named, and desiring Advice how they were to act, they were informed, they should throw the Money away, and then they might lawfully give their Votes; upon this they delivered it up, and polled for the opposite Canditate. The Candidate from whom the Money was said to come being asked whether it was his Property, he absolutely denied it, and Doubts arising what to do with the same, it was agreed to return it to the Persons who had delivered it into Court.*

Extract of a Letter from Amsterdam, dated March 31.

" *The Difference between England and Portugal will have no Consequences, notwithstanding the secret Intrigues of a certain Court. A Palliative has been found which will supply for some Time the Place of a radical Cure, about which both Courts earnestly labour, in order to remove every Thing that may disturb the good Intelligence between the two Kingdoms, whose Interests are so strictly united, that they may be said to be the same.*

The English and Dutch carry on their Trade in Portugal by Factors of their own Nations, who, after enriching themselves in a few Years, return home with immense Wealth, leaving their Houses to Relations or Clerks who are their Countrymen. The Portugueze, vexed to see Foreigners fatten on their Spoils, ask, why the Factors for foreign Trade are not entrusted to them? The Ministry have appeared for some Years sensible to these Complaints; and have from time to time made Attempts to put the Natives in Possession of the Magazines and Houses where the Foreigners deposite the Goods sold in Portugal or sent to the Indies. The Foreign Merchants answer, that they are, and always will be, ready to consign their Goods to the Portugueze, if these be able to answer and pay for them, like the Factors they have employed hitherto. The Foreign Merchants have done more: They have offered Goods to some Portugueze, asking how and when they expect to pay for them. The latter were unable, and did not presume, to promise Payment till the Return of the India Fleet: And being urged to explain themselves further, they were forced to own, that before the Return of the Fleet they should have Occasion for fresh Goods for the following Year: And thus their Vent would increase without their being able to insure the entire Payment of the first Goods till the third, fourth, or fifth Year, because their Indian Factors would require all that Time to convert them into Money.

It is apparent that the English and Dutch cannot deal with the Portuguze on these Terms; the Factors whom they have hitherto dealt with having always made their Payment before the Return of the Indian Fleet. To this stumbling Block, so difficult to remove, another is added. The Portugueze Ministry would have the English, instead of the vast Sums they carry out yearly, take their Returns in Goods of the Growth of Portugal, such as Salt, Sugar, Hides, &c. brought from Brazil, Africa, and the Indies. A Proposal so reasonable could not be rejected, if the Portugueze would sell those Goods at the Prices they are sold at elsewhere. This is the Point under Consideration at present: There are great Hopes of its being settled; and if once adjusted to the reciprocal Satisfaction of the Parties concerned, the Portugueze Ministry will find some Expedient to adjust the first, by advancing Money to the Natives to pay their English and Dutch Correspondents."

The Tremor was scarce perceptible in Town, but in the circumjacent Parts of the Country very plain; and a Noise was very distinctly heard, most like the Rattling of Coach-wheels going over a Bridge.*

WILLIAMSBURG, June 6.

Last Week Capt. Whitwell, in his Majesty's Ship Triton, being on a Cruise off the Capes, met with a Vessel belonging to Rhode-Island, called the Willing Maid, and another belonging to Bermuda, called the Success, on board of both which finding a large Quantity of Tobacco, he took them and brought them into Hampton; they were immediately secured, the People and Sails brought on Shore, and two Waiters put on board each of them; but on Wednesday Se'ennight at Night, the two Mates, with three of the People belonging to the Success, arm'd themselves, broke open the Storehouse where the Sails were lodged, and carried them on board, where they tied the Waiters Hand and Foot, and carried the Vessel clear off, putting the Officers ashore at the Fort.

And we hear from Hampton, that the same Day, about 3 a Clock in the Afternoon, they had a most violent Storm of Rain and Hail, attended with Thunder and Lightning; some of the Hail-stones were near as big as Hens Eggs, by which many Windows were broke, and some Sheep kill'd either by them or the Lightning.

Joseph Inches Commander, and as she went down, his Excellency was saluted by the Town Batteries, and by Cannon planted upon several Wharffs for that Purpose. When the Ship came a-breast of the Castle, his Excellency was saluted by the Cannon of that Fortress, which Salute was returned by the Cannon on board the Ship; and there being 8 Transport Vessels, with about 600 Troops on board, besides the Country Sloop, waiting for his Excellency's coming down, they all sailed together with a fair Wind for Casco-bay, in the Eastern Part of this Province. Several Members of the Council and House of Representatives, besides a great Number of other Gentlemen, are gone down with his Excellency, and intend to accompany him till his Return.

Several Sloops are driven from their Anchors, and carried down the River, with many Piles of Boards, Plank, &c. that were on the Banks. All the low Lands, Pasture, Meadow and Corn Ground, near the River, are under Water; the perpendicular Height of the Rising said to be twelve Feet. THE drawing to begin on the 22d day of July next, or ſooner, if ſooner full, in the preſence of at leaſt three of the managers, and as many of the adventurers as ſhall think fit to attend, and continue drawing till finiſhed.

A liſt of the prizes to be publiſhed in the publick papers as ſoon as the drawing is compleated, that the fortunate may know the fate of their tickets.

The money to be paid to the fortunate, as ſoon as the drawing is finiſhed, the ſum of Fifteen per Cent. being firſt deducted.

The managers appointed are Sebaſtine Neff, George Donnenhaver, Jacob Miller, Charles Hay, Jacob Beyerle, and Matthias Gainſele, who are to give bond, and be upon oath for the faithful diſcharge of their truſt.

The tickets will begin to be ſold by the managers, at their reſpective dwellings on Friday the 7th of September inſt.

We hope a deſign of this kind will meet with encouragement, as the only motive that induced the ſociety to enter on ſuch a ſcheme, was their being thoroughly ſenſible of the diſadvantages they labour under, and the great neceſſity there is of a houſe in Germantown, for their miniſter to inſtruct thoſe children in reading and writing, whoſe parents are unable to give them ſuch education; and as the ſociety amongſt themſelves are unable to accompliſh ſuch an undertaking, were importuned to have recourſe to a lottery, in order to enable them to carry on the ſame, as it will tend to the publick good.

N. B. The drawing to be fixed in ſuch manner that in the firſt 4746 tickets in every ſeven following numbers there ſhall be two prizes certain; and in the remaining 254 in every four following numbers ſhall be one prize certain; ſo that any adventurer upon purchaſing ſeven following numbers cannot poſſibly loſe but two Pieces of Eight, and the Fifteen per Cent. of the two prizes, that is, ſetting the caſe he gets the loweſt prizes, tho' nevertheleſs at the ſame time he ſtands as fair a chance for any of the higher prizes, as in the drawing of any other lottery.

☞ The managers hereby give notice to ſuch of the adventurers as have not purchaſed ſeven following number'd tickets, to come and return them on or before the 10th of July, that they may either receive their money back, or have their compliment of tickets made up to them, in order to make the whole agreeable to the above additional ſcheme or method of drawing.

There is nothing now but theſe ſcatter'd ſingle tickets that cauſes the drawing to be put off; wherefore the publick may be aſſured that it will certainly commence at the time now above appointed.

Tickets in the above lottery are alſo to be had at Mr. Daniel Benezet's, and Mr. Alexander Huſton's.

Carpe Diem, quam minimum credulas postero. HOR.

THE Power of looking forward into Futurity, tho' it is the distinguishing Mark of Reason, and evidences that most important Truth, namely, the Immortality of the Soul, yet if misapplied or misused, will serve only to flatter the Imagination, and mislead the Mind into a mazy Tract of Errors, and embitter all the few Comforts that are allotted to human Life.

It is a Misfortune incident to all Men, more especially to People of volatile Dispositions, that they know not how to enjoy the present Hour: The Mind of Man is perpetually planning out Schemes of future Happiness, and contemplating distant Prospects of Pleasure which he flatters himself he is one Day to possess, instead of endeavouring to enjoy the present with solid Satisfaction. This unhappy Disposition, this Fickleness of Mind, makes us live in a continual State of uneasy Expectation: For when we have gain'd any Thing which we have long wish'd for, when the tardy Resolution of Time has brought to us what we have long impatiently expected, we soon grow cool with Possession, and look with Indifference upon that which so lately engaged our Attention, and was the sole Object of our Hopes. Like Children we long for a Bauble, no sooner have we got it, but we are tired, and long for another, more pleas'd with the Gratification of our wayward Humours, than with the Possession of the Thing we wanted; new Objects, new Pleasures, then strike our Imaginations; these we pursue with the same Ardour; these we long for with the same Impatience, and possess them with the same Disappointment and Dissatisfaction.

One would imagine, that so many fruitless Endeavours, so many repeated Disappointments would effectually cure us of the Folly of indulging our Minds in the fond Expectation of future Felicity; that we should at last be prevail'd upon to sit down contented in our respective Stations, to enjoy the Blessings that are set before us, and to make the most of that only Portion of Time which we can, with any Certainty, call our own; yet such is the Imperfection of our Nature, such the Infatuation of our Minds, that in Spite of the most convincing Demonstrations of the Folly of building upon Futurity, tho' we see People unexpectedly sink into the Grave who were engaged in the same eager Pursuit with ourselves, we still continue to persevere in the fond Delusion, we still pursue a Phantom that mocks us at a Distance, but always eludes our Grasp.

Would every Man, instead of indulging vain and uncertain Expectations, instead of forming romantick Schemes of visionary Happiness, employ his Thoughts and the Faculties of his Mind, in studying how he may best improve the present Hour, he would find solid Advantages resulting from his Conduct, and be enabled to cast a retrospective Eye upon a past Life with Pleasure and Self-satisfaction. Happiness, as much as our Nature will admit of, it is in every Man's Power to obtain; it does not require a great Genius, or eminent Abilities to render Life agreeable; on the contrary, we often see great Wits fall into great Errors; Men of more Vivacity than Judgment, often wander in a fruitless Search of Happiness, by giving Way to the Delusions of Fancy, while a Man of plain common Sense jogs on contented in the Road of Life, enjoys the Pleasures that fall in his Way with Thankfulness, without flattering his Mind with the Hopes of future Enjoyments, which would certainly disappoint his Expectations.

The Happiness of Life does not consist in the Possession of Affluence or Power, or the Indulging in what the World calls Pleasure; our Time is given us for more important Purposes; he alone can be said to enjoy Life, that knows how to make a proper Use of Time, that labours with honest Industry in his Calling, and who does all the Good in his Power.

To speak in the Eastern Phrase, Life may be compared to a Book, our Days to the Leaves of it; we should be careful therefore to write nothing in any Page which we should be ashamed to have seen by all the World; happy will it be for us when we come to give up our Accounts (and no Man knows how soon he may be call'd upon) if we can produce Records of virtuous Actions; but it fills us with Confusion to find many Pages intirely blank, and others disfigured with foul and detestable Blots. Every Portion of misspent or neglected Time must be accounted for; it is well known, that the Emperor Titus, who, for his many excellent Qualities, was stiled the Delight and Darling of Mankind, being told one Night that he had bestowed no Favour that Day, exclaim'd with lively Tokens of Regret and Sorrow; My Friends, I have lost a Day. This Godlike Man, tho' a Heathen, thought every Day lost that was not employed in Acts of Goodness, whilst many Christians think every Day thrown away, that is not spent in a successive Round of idle Pleasures, or the sordid Acquisition of Money.

When we consider what a little Portion of Time is here allowed us, and how precarious and uncertain even that little is, it should teach us to set a just Value upon it, to husband every Hour with the utmost Frugality, to let no Day slip without performing something worthy reasonable Beings and Christians; we must trust as little as possible to To-morrow, To-morrow is no more the Property of the young Man than the Old, but is equally uncertain to both.

Be wise To-day, 'tis Madness to defer,
Procrastination is the Thief of Time.
Year after Year it steals till all are gone!
At Thirty Man suspects himself a Fool,
Knows it at Forty, and reforms his Plan;
At Fifty chides his infamous Delay,
Resolves, and re-resolves, then dies the same.

Night Thoughts.

Such is the Folly of letting Time elapse without improving it; we are taught, that the Duties of Life are commensurate to its Duration, and that every Day brings with it a Task, which, if neglected, is doubled on the Morrow; we ought not then to contract Debts which we are not sure we shall live to discharge; we must curb all irregular Desires, all Anticipations of Time, and all Expectations from Futurity. Were human Life indeed to be extended to the stupendous Longevity of the Antediluvians, and were we blest'd with the same happy Temperament of Body, some Excuse for our Folly, some Extenuation of our Guilt might be admitted for trifling away a Century; but since half that Period of Time is more than what Half the Race of Men attain to, since we are liable to so many Accidents, our Faculties may be impaired by a tedious Illness, or a Disease may hurry us out of Life with unexpected Rapidity; what Madness is it to defer living till To-morrow, to depend for Happiness on a Day remote, which tho' we may live to see, yet the same foolish Passion will render us incapable of enjoying! Since the Events of Futurity are involved in an impenetrable Mist, why should we be anxious about what we know nothing of? Why should we torture our Minds with the dismal Apprehensions of chimerical Dangers, and conjectural Calamities? The Heathen Poets frequently exhort us with earnest Sollicitations, to make the most of Time present, to snatch the fleeting Moments as they pass, and to enjoy Pleasures while it is in our Power; we ought to follow their Advice, but not in the Manner they would inculcate it; we are not to wallow in extravagant Riot and Debauchery, tho' we may enjoy innocent Amusements; we must endeavour to suppress bad Habits, not to humour them; to correct our Vices, not to give way to them; as it is infinitely of more Advantage and Importance to practise Virtue than to indulge Pleasure.

Edinburgh, April 18. *Tuesday last, a Commission passed the Seals here, appointing the Right Honourable Alexander, Earl of Leven, to be one of the Lords of Police, in the Room of Lord Torphichen, deceased.*

Cashell, March 20. Last Monday Night Niele, the Romish Priest, who hath been confined about six Months in the Goal of Clonmell, for marrying Miss Mary Groves to Mr. Grady, was brought under a strong Guard of Horse from thence to this Town, in order to be transmitted to Limerick to take his Trial at the present Assizes; and the next Morning the Sub-Sheriff, with his Bailiffs, &c. and escorted by a Serjeant, Corporal, and twelve Men from the Barracks here, proceeded with him towards the County of Limerick; but at a Place called the Long-Stone, three Miles from Tipperary, they were opposed by a Mob of above 1000 Men, arm'd with different Weapons, who rescued the Prisoner, after a very sharp Skirmish, in which the Sheriff and Soldiers behav'd with great Bravery, but were at last overpower'd by Numbers. One of the Mob was shot dead on the Spot, and many others were dangerously wounded. Two of the Soldiers are very much bruised, and the Sheriff narrowly escap'd being kill'd. It is thought, if it had not been for the Priest, who begg'd the Rescuers to desist, that very few of the Soldiers and Sheriff's Party would have escap'd with Life.

Dublin, April 13. *We have Advice, that last Saturday Se'nnight, an Engineer, and fourteen of the Colliers, were burnt to Death in the new Pit, call'd the Duke's Pit, in Whitehaven, occasioned by the foul Air, commonly called the Damp, taking Fire.*

LONDON, *April* 4.

Yesterday was held a general Court of the Free British Fishery, when there were present the Earl of Shaftsbury, Earl of Romney, and a great Number of Gentlemen, Merchants, and other Proprietors. The Report from the Committee, to enquire into the State of their Affairs, and how they had been conducted, was read, and taken into Consideration; but warm Debates arising thereupon, was, at length, by a great Majority, agreed to be dropt. A Proposal was then offered by a very eminent Merchant, one of the Council, whose Knowledge and Abilities are equal to his extensive Commerce, to put the Affairs of the Society in a more certain and advantageous Method, which upon being fully and clearly examined, was in most Part agreed to, and left to the Gentlemen of the Council to carry into Execution, so far as they shall judge expedient and conducive to the Benefit of the Society. And it may be reasonably hoped, from the Prudence and Temper of the present Council, that the Difficulties and Discouragements which have hitherto attended this great national Undertaking, will be surmounted; and by Industry, Perseverance and Frugality, be put into such a State as may answer the general Wish, as well as the publick-spirited Intentions of the generous Subscribers. The principal Speakers in the Debates were, the Earl of Shaftsbury, Sir Bourchier Wrey, Sir William Blackett, Alderman Beckford, Edward Vernon, Esq; William Sloane, Esq; W. Southby, Esq; General Oglethorp, Mr. Jesser, Mr. Wilson, &c.

April 6. One Euchteriz, a Partner of the Strasburgher who lately undertook to make Saltpetre with common Salt for the Service of the French, has contracted to furnish the Crown of Denmark for five Years with all the Saltpetre they shall have Occasion for, at 15,000 Rixdollars the Quintal, and after that Term a fifth cheaper.

According to the Articles of the Union, North Britons and South Britons ought to be on the same Footing, with Regard to all fundamental Rights and Privileges; and as clandestine Marriages are found to be such great Evils in England, that it may be better to run the Risk of equal, or even greater Inconveniences, than to suppress them, it is to be presumed that proper Care will be taken to prevent them likewise in Scotland, since that Kingdom is justly entitled to the same Favour; and especially as the Inhabitants of the Northern Parts of England, as the Case now stands, may often cross the Tweed, to steal a Wedding, and break the Hearts of old Misers; whose Case ought particularly to be commiserated, as they are the most useful Members in all Common-Wealths.

One Day last Week, a young hearty Fellow, Servant to one Cotton, a Wheelwright and Coach-maker at Richmond, being in Company with two or three Friends, happened in their Walk to meet a Corpse going to be interr'd, when he, upon its first Appearnce, said to one of his Companions, Jack, Here's the Corpse of some Person going to be buried, who died of the Small-Pox, for I have the Scent of the Distemper very strong in my Nose; after the Corpse had pass'd them, his Friends were for going into a neighbouring publick House to drink, but he complained that he had a violent Pain in his Head, and could not drink any more; upon which he went directly home and took to his Bed, and in three Days after died of the Small-Pox.

April 11. Tuesday the Right Honourable the Earl Granville was chosen a Governor of the Charter-house, in the Room of the late Right Honourable Henry Pelham. And in a few Weeks another Governor will be chosen, in the Room of the late Lord Chief Justice Lee.

April 12. *Private Letters from Berlin insinuate, that the Publick are not likely to hear any Thing further about the Affair of East-Friezland, nor the Difference concerning the Silesia Loan, as it is probable that this Summer will bring all the Disputes into a fair Way of being decided: But whether by Negociation or the Sword, does not plainly appear in those Letters.*

April 13. By a Letter from Captain Maine, dated at Leghorn, we have an Account of a Storm of Thunder and Hail, which continued for some Time with such uncommon Violence, that a Dutch Vessel was rent in Pieces, and all the Crew on board perished. Captain Maine, going to Shore, was apprehensive of the Boat's sinking, by the Quantity and Weight of the Hailstones, most of which were between three and four Inches in Circumference.

On Thursday Night some Gentlemen that supp'd with a Lodger at a House in York-Buildings, having drank pretty freely, took it into their Heads, that they would break open the Door of a Bed-chamber where two young Ladies (Relations of the Landlord of the House) were in Bed, which they effected. The Ladies awaking, scream'd out, which brought the Landlord down Stairs out of Bed; and on his desiring the Gentlemen to retire, assuring them his House was no Brothel, one of them, a Sea Officer, threw out a Tuck from a Stick he had in his Hand, and run the Landlord through one of his Ribs. A Surgeon was immediately sent for, and the Wound is happily not mortal. The Officer immediately made off.

A strange Disorder has broke out in the Horses that cannot be accounted for. In the Morning a Swelling appears in their Head, and before Night its Growth is so prodigious and rapid, that their Heads and Necks are bigger than the largest Bulls, and by the Morning many of them are found dead.

WILLIAMSBURG, June 6.

Last Wednesday Fortnight, there was taken off Cape Henry, the largest Draught of Fish ever known in this Part of the World, after several Pilot Boats, &c. were loaded with them, there remained on the Beach, not less than twenty Waggon Loads, among which were vast Quantities of very fine large Mackrel.

June 13.

Copy of a Letter from a Gentleman who attended his Honour the Governor to Wincheſter.

We were most agreeably entertained last Night by Mr. Christopher Gist, from Colonel Washington's Camp, at a Place called the Great Meadows, with the welcome News of the total Defeat of a Party of French, that came to attack our People in the Night of the 28th last past. Some friendly Indians informed the Colonel of their Design, and he, with the Vigilance and Bravery of a good Officer, met them with a Party of about 40 Men, and gave them so proper a Reception, that ten of them fell in the Action, one was wounded, and the remaining 21 were made Prisoners, whom his Honour the Governor has ordered to Williamsburg, under an Escort. There are several Persons of Note among the Prisoners, particularly Monsieur La Force, who was considered by the French as one of the most enterprizing and useful Men they had, as he is a Person of great Influence among the Indians, whose Language he speaks perfectly, and is extremely well acquainted with the Country. This well timed Success has rivetted the Indians to our Interest, who scalped those they had killed, and have sent the Scalps, and a black Belt, to all their Allies, to oblige them to take up the Hatchet (as they express it) and strike the French, whose Numbers, we are assured, from good Intelligence, do not in the whole amount to 600.

Colonel Fry's Illness has greatly retarded the March of the Division under his Command, which would otherwise have been long ago at the Camp, where we hourly expect to hear of their Arrival, and that of the Company from South-Carolina. We hear that they are all in good Health, and high Spirits, and express the most ardent Wishes to deliver their Country from these Violators of its Peace, and Intruders on our Sovereign's Property.

And on Tuesday Evening last, the above-mentioned Twenty-one Prisoners arrived in this City, under a strong Guard, amongst whom are four Officers, who acquaint us that their Commander Captain Dijonville was killed in the Action.

We are likewise certainly assured by the Gentlemen who escorted the Prisoners, of the Death of Joshua Fry, Esq; Colonel of the Virginia Regiment, and Commander in Chief of the Expedition to Ohio. He was born in Somersetshire, and bred at Oxford, where he made a very eminent Proficiency in all the solid and useful Learning of that noble Place; and particularly excelled in the Mathematical Sciences. He was first Grammar-Master, and then Professor of Mathematicks at William and Mary College; but having quitted those Posts, he has since gone through various publick Employments in this Country, with acknowledged Ability, and unblemished Honour and Reputation. He was a Man of so clear a Head, so mild a Temper, and so good a Heart, that he never failed to engage the Love and Esteem of all that knew, or were concerned with him, and therefore died universally lamented.

The

The Shoreham, Captain Julian Legge, is arrived in Hampton Road from South-Carolina, and has brought in with him the three Convicts, &c. that some Time ago run away with a Schooner belonging to Mr. Patrick Creagh of Maryland, after having murder'd the Captain, &c. and thrown him overboard.

Arrived likewise in Hampton Road, from South-Carolina, the Baltimore Sloop of War, Captain Suckling Commander.

At the Court of Oyer and Terminer begun here on Tuesday last, the following Criminals were brought to their Trials, viz. Godfrey Wall, Jonas Bayley, Patrick Hoggan, and John Gowdie, all for Felony, guilty Death. Dudley Wootten, for Manslaughter, burnt in the Hand. John Dorton for Felony, burnt in the Hand, and bound to his good Behaviour. George Burnett, for Felony burnt in the Hand. Mary Gray, for Murder, acquitted by the Grand Jury. William Sherrin, for Felony, acquitted by the Petit Jury.

BOSTON, July 1.

On Tuesday last departed this Life, after a lingering Sickness, in the Fifty-first Year of his Age, The Right Worshipful THOMAS OXNARD, Esq; Grand Master of the Ancient and Honourable Society of Free and Accepted Masons in North America: A Gentleman whose Loss is not only deplored by the Fraternity, over which for eleven Years he presided, but by all those who had enjoyed the Pleasure of his Acquaintance. He was an experienced Merchant, an upright Dealer, an affectionate Husband, a tender Father, a sincere Friend, a kind Master. He was free from Bigotry and Enthusiasm, and his Religion, on the Duties of which he constantly attended, was truly Catholick. The News of his approaching Death was received by him with Composure and Resignation; he set his House in Order, and, in Expectation of a better Life, he bore the last Agonies of this with a most Christian Fortitude. Reader, wouldst thou shine in these amiable Virtues, imitate him.

His Corps was attended to the Grave last Friday by a numerous Train of Relations, of Free and Accepted Masons, Friends and Acquaintance. The Free and Accepted Masons dressed in black, and cloath'd with white Aprons and Gloves, walk'd before in a Procession of two, with the Grand Master's Jewel, usually worn by him, pendant from the Ribbon, on a tassel'd black Velvet Cushion, carried next to the Corps. Immediately before the Cushion walk'd the Deputy Grand Master, with the Grand Wardens, the past Grand Officers, the other Officers of the Grand Lodge, the Masters, Wardens and Officers of the other Lodges in Town, in their Order: All the Masters and Wardens with their Jewels pendant upon black Ribbons. After the Interment, the Fraternity walked before the Relations, and return'd with them to the Mansion House of the Deceased, where they took their Leave. The whole Attendance was conducted thro' a vast Number of Spectators with great Order and Decency.

We have certain Advice, that his Excellency, with the Gentlemen who attended him, arrived safe at Falmouth in Casco Bay on Wednesday last, where all the Transports were likewise arrived.

NEW-YORK, July 8.

By the last Advices from Albany we are informed, That none of the Indians came down till the 20th of June past: That the Mohawks, did not arrive till the 27th, in the Evening; and Hendrick, their Sachem, the next Day: That the Governor delivered his Speech to the Indians, in Behalf of this and all the Provinces, on the 29th: That several of the Indian Sachems spoke to the Governor the Day before he made his Speech to them: That they were to give their set Answers on Monday the first Instant; And, That the Indians seem to be in a very good Temper with the English, notwithstanding the Artifices of the French to induce them to the contrary.

Last Wednesday, Capt. Hill, in the Sloop Success of this Port, arrived here from Jamaica, after a very tedious Passage of 56 Days: About 25 Days ago he spoke with Captain Price, from Jamaica for Rhode-Island, who had lost his Rudder on the Coloradoes, and was otherwise much distress'd: On the 23d ult. in Lat. 30, 18, Lon. 77, 17, he spoke with Capt. Easton, for Rhode-Island also, who had then been out 14 Days from Jamaica, all well, but the Vessel very leaky: And on the 28th ult. 50 Leagues East of Cape Henry, he spoke with his Majesty's Ship Centaur, the Honourable Dudley Digges, Commander, from Virginia, for London, all well on board.

By Capt. Man, and Capt. Savage each in 32 Days from the Bay of Honduras, we are told, That about a Fortnight before they sailed, near 300 Spaniards came by Land against the Bay-men, with a Design to cut them off; but were repuls'd and obliged to withdraw by the Attack of only 100 of the Inhabitants, who killed and wounded a great Number of them, and were not afterwards invaded.

They sailed from the Bay in Company with the Captains Cathcart, in a Ship, Cullum, in a Snow, Adams in a Brig, Monk in a Sloop, Blunt in a Ship, M'Carty in a Brig, and another Vessel, all for Boston; Capt. Marshal belonging to St. Kitts, for London; Sergeant and Allen for R. Island; and Miller in a Ship for Amsterdam. They left in the Bay, Ramsey and Furlong, of this Port, and Gordon of Jamaica. A Spanish Brig, Galley and two Sloops, were plying about the Mouth of the River.

We are told from S. Carolina, that the Sloop, mentioned in this Paper of May 13th last, Whitesides, Master, taken in the River Gambia on the 3d of March last, by the Negroes, was retaken by the Carolina Sloop mentioned to be bound in, Capt. Roffe Commander, after a very smart Engagement on both Sides.

We learn by Capt. Philipson, in 30 Days from Newfoundland, that the Captains Johnston, Wilmot, Shepherd and Price, were soon to sail from thence; the three former for Boston, and the latter for R. Island.

The Ship Dennis and Esther, Robert Hardy Master, of Philadelphia, was spoke with on the 5th ultimo, off of the Coloradoes (was 17 Days out of Jamaica, bound for London) by Captain Vesey, who arrived here last Week from the Musquetos.

PHILADELPHIA, July 11.

Sunday last Capt. Stewart arrived here from Jamaica: On the second Instant he spoke with a Schooner, Capt. Craig, from New-York, bound to St. Kitts.

The next Day Capt. Lownes came in from the same Island, and advises, that the Captains Dowers, Edwards, and Riddle, were all got there from this Port: That Capt. Bane, and a Bermudian Sloop, from New-York, had also arrived: That Capt. Foge, for New-England, sailed in Company with him: And that Captain Dowers, Capt. Jerrard, and several Strangers, would sail soon after him for this Place.

By Capt. Jackson from Santa Cruz, there is Advice, that Capt. Eccles was to sail quickly for this Harbour; and that Capt. Rankin, of this Town, was likewise there, and would be ready to sail in a short Time after Capt. Eccles.

Since our last a Gentleman arrived here from Alexandria, in Virginia, and informed us, that before he set out, he saw a Letter from Colonel Washington to his Friend there, advising, that he designed to march immediately and attack the French with the Forces he had then under him, being above 500 white Men, besides Indians, and not to wait the Arrival of the other Troops designed for his Camp: That all with him, white Men and Indians, were in high Spirits, and eager for Action, having Plenty of every Thing: And that, on the contrary, he had good Intelligence the Enemy were in great Want of Provisions, their Number vastly inferior to what it had been represented, and that in general they were dissatisfied, which occasioned a daily Desertion among them; so that he was in great Hopes of getting the better of them without much Bloodshed.

The Gentleman further added, that 170 of the North-Carolina Men, who came by Water, and the New-York Companies, were at Alexandria when he left it; and that 300 more had marched from North-Carolina by Land, but where they were he had not learnt. He likewise said, that above a Hundred stout Men, from South-Carolina, had gone from Alexandria for the Camp, but whether or not they had got to it he could not tell.

We hear from Albany, that the Indians there seem'd highly pleased, on receiving the News from Ohio of the Defeat of a Party of the French by the English.

July 18, 1754. NUMB. 1334.

The PENNSYLVANIA GAZETTE.

Containing the Freſheſt Advices, Foreign and Domeſtick.

By Captain Alliſon from Cork, and Captain Simpſon from Dublin, we have the following Advices, viz.

LEGHORN, March 23.

WE *are informed by our laſt Advices from Genoa, that the Republick are going to ſend a Reinforcement of ſix hundred diſciplined Troops to Corſica, in order to reinforce the Garriſons of Baſtia, Ajaccio, Calvi, and Bonifacio.*

Paris, April 12. *On Monday Morning laſt* M. Duillet, *Counſellor of the Chatelet, was ſeized, by Virtue of the King's* Lettre de Cachet, *and committed to the Baſtile; but M. Pelletier, another of the Members of that Tribunal, againſt whom a Lettre de Cachet was likewiſe iſſued, found Means to get away.*

Naples, March 30. *On Advice having been received at Court, that the Corſairs of Barbary have lately taken ſeveral Veſſels laden with Corn in the Sicilian Seas, four Chebecks are ordered to be fitted out forthwith; and in the mean Time a Man of War of* 60 *Guns, and* 350 *Men, called the Conception, put to Sea on Monday Morning laſt, in order to cruize on thoſe Pyrates.*

Paris, April 15. *It is reported, that if the Chatelet does not conform to the Intentions of the King, by acknowledging the Authority of the Royal Chamber, ſome of the Members of that Tribunal will be removed, and thoſe which remain will be united to the Mint, to form one and the ſame Juriſdiction. It is alſo reported, that M. Granjean de la Croix, Counſellor of the Chatelet, who was put in the Baſtile, and was very ill when he was carried there, is ſince dead.*

Straſbourgh, April 16. *It is aſſured, that a conſiderable Camp will be formed the approaching Summer in this Province, and that the Count de Maillebois, Son of the Marſhal of that Name, will have the Command of it.*

Bruſſels, April 22. *They are hard at Work in repairing the Fortifications of Mons, and building a Fort, that, according to the Plan, will be impregnable.*

Berlin, *April* 23. Advice has been received from Sonnenbourg, that a violent Thunder Storm happened there the 13th Inſtant, and that the Lightning ſet Fire to the Church of a neighbouring Village, from whence the Flames were communicated to the Houſes, and the greateſt Part of the Place was burnt to the Ground.

Paris, *April* 22. The King has granted Count de Lowendahl an additional Salary of 200,000 Livres per Annum, and an Apartment in the Palace of Verſailles. The Conduct of the Marquis de Curſay, when he commanded his Majeſty's Troops in Corſica, has been ſo well juſtified, that his Majeſty has given him Leave to return to this City, from whence he has been baniſhed for ſome Time paſt, and confined within the Limits of his own Eſtate.

Moſcow, March 29, The 22d Inſtant the Empreſs ſigned an Order for raiſing immediately Thirty Thouſand Recruits: The Revel Squadron is to be augmented with Fifty Gallies lately built at Peterſburgh, which will take ſeveral Regiments on board, and tranſport them to Revel. Livonia, and the adjacent Provinces, will ſwarm with Troops, by the Arrival of the Regiments ſucceſſively repairing thither, who will ſoon be joined by a large Body of irregular Forces.

Stockholm, April 16. The King aſſiſts very regularly at the Aſſemblies of the Senate, whoſe preſent Deliberations are upon very important Affairs, but are kept very ſecret. There is a Talk of having Encampments in this Kingdom, in Imitation of other Powers, in order to exerciſe the Troops; and the Fleet, which has been improving for ſeveral Years paſt, will be ready to put to Sea the latter End of next Month. The Number of Sailors, which are collected in the ſeveral Sea Ports, will be ſufficient, in caſe of Need, to man a Fleet of twenty Men of War.

Madrid April 9. By the Death of Don Joſeph de Carvajal de Lancaſtre, who was ſeized with a violent Fit of the Cholick the 8th Inſtant, which carried him off Yeſterday in the 72d Year of his Age, the Marquis de la Enſenada, Secretary of State for the Departments of the Finances, the Marine, the Indies, and War, bears alone the Weight of the principal Affairs of this Monarchy; but as the King has reſolved to create a new Secretary of State for Foreign Affairs, his Majeſty has fixed upon Don Richardo Wall, his Embaſſador at the Britiſh Court for that Poſt.

Legborn, April 13. They write from Corſica, that the Malecontents have aſſembled a Body of 7 or 8000 Men, with which they are reſolved to march directly to San Fiorenzo, to endeavour to repoſſeſs themſelves of that Place.

Marſeilles, April 16. The Maſters of ſeveral Ships arrived here lately from the Coaſt of Africa, ſay, that the Dey and Regency of Algiers were diſpoſed to ſend a ſolemn Embaſſy to the Court of France, to make Satisfaction for the Inſults committed by the Corſairs of that State againſt the Flag of his moſt Chriſtian Majeſty.

Vienna, April 20. The Intention of marrying the Archduke Joſeph to a Princeſs of Bavaria, meets with general Approbation; and, in the Circumſtance of the Election of a King of the Romans, will be of ſingular Advantage, by uniting the Votes of the Court of Munich to thoſe of Bonn, Manheim and Dreſden.

Vienna, April 20. The Convention between this Court and the Republick of Venice, for regulating the Limits of their reſpective Territories, is concluded, and it is ſaid, that the Ratifications of it are already exchanged.

Hamburgh, April 26. Our Politicians are very full of Conjectures concerning the Affairs of the North, eſpecially ſince the Arrival of a Piece of News from Dantzick, which, if true, is worthy of Attention; namely, that a neighbouring Power ſent Orders to make Preparations at Marienwerder, for throwing a Bridge over the Viſtula. We wait with Impatience for a Confirmation of this News.

Florence, April 13. It is currently reported here, that a conſiderable Body of French Troops has advanced towards the Frontiers of Savoy.

Stockholm, April 18. The great Privileges granted to the Town of Landſcroon, in Commerce, has drawn thither a great Number of Foreigners to be employed, and among them are divers ſkilful Shipwrights, from which his Swediſh Majeſty expects conſiderable Advantages.

LONDON, *April* 18.

Letters from Germany of good Credit aſſure us, that the Archduke Joſeph will be elected King of the Romans before the Month of December, whether his Britannick Majeſty croſſes the Sea or not.

Letters from Genoa adviſe, that a new Miniſter is arrived there from the Imperial Court, and a good Number of the leading Men in the Senate are gained over to the Houſe of Auſtria. This new Trial of the Empreſs Queen to bring over the Genoeſe, theſe Letters add, has greatly heightened the Umbrage which certain Powers have already taken at the private Engagements between the Courts of Vienna and Modena.

In a few Days there will be a Promotion of Admirals of his Majeſty's Fleet, when, among others, the four following Gentlemen will be appointed, viz. Temple Weſt, and George Pocock, Eſqrs; Rear Admirals of the White; and the Hon. George Townſhend, and Savage Moiſtyn, Eſqrs; Rear Admirals of the Blue.

A certain Republick in Italy, is in more perplexed Circumſtances than ever; ſince, if ſhe adheres to one Party, ſhe will be forced to a Sale which ſhe does not like; and if to the other, ſhe is in Danger of ſeeing her Property taken from her, without Equivalent in Territory or Money.

April 20. This Day at Noon the Election ended for Weſtminſter, when the Numbers were as follows, viz. for Col. Cornwallis 3385, Sir John Croſſe 3184, Lord Middleſex 209, General Oglethorpe 261. Upon which the two former were declared duly elected.

We hear that the three Ships lately damaged on the Coaſt of Ireland, will, when repaired, be ſtationed in the Weſt-Indies.

April 30. *This Day at Noon, came on at Guildhall the Election for Repreſentatives of this City in Parliament; when the ſeveral Aldermen, together with Mr. Alexander Cruden, Citizen and Stationer, being ſeparately put in Nomination, the Majority of Hands was declared for Sir John Barnard, Slingſby Bethell, Eſq; Sir Richard Glyn, and William Beckford, Eſq; But a Poll was demanded, on Behalf of Sir Robert Ladbroke, and Sir William Calvert, which began at Half an Hour after Two this Afternoon, and will be continued To-morrow and the following Days, from Nine in the Morning, till Four in the Afternoon.*

There is Advice from Berlin, that the Court has contracted for 8000 *Horſes to remount all the Regiments of Cavalry and Dragoons, and* 1000 *for the Service of the Artillery.*

According to Advices from Port l'Orient, dated the 8th Inſtant, ſeveral Ships fitted out by their Eaſt-India Company, have ſet Sail for Pondicherry, with the Independant Companies raiſed laſt Year in Alſace, and a vaſt Quantity of Warlike Stores.

It appears by Letters from Copenhagen, that the laſt Advices from Stockholm and Berlin, have quickened the Preparations of the Daniſh Court; ſo that the intended Camp in Holſtein will be formed before the End of May, as there is a Neceſſity to be in Readineſs for Action, in order to give Weight to a certain Negociation with Ruſſia, or elſe to cooperate with the Swedes and Pruſſians, if the Negociation ſhould miſcarry.

Our Correſpondents at Paris acquaint us, that they are under ſtrong Apprehenſions there of ſeeing the Parliament transferr'd to Bourges, the Court of the Chatelet diſſolved, and the Scheme of the high flying Clergy carried to the utmoſt Height. The waſt Expence that muſt attend the preſent military Preparations gives very great Concern to the Lovers of Peace, who infer from thence that ſomething more than Camps of Parade are intended, which the laſt Letters from Italy and Germany ſeem to confirm.

May 4. According to a private Letter from Stockholm, their military Preparations are carried on in a Manner that ſeems leſs to beſpeak Shew than Service; the Land Troops are to be encamped by the Middle of May, and a very ſtrong Squadron will be able to put to Sea in the Beginning of June. There appears an unuſual Air of Silence and Gravity at Court, and the Miniſters of State are more occupied as well as more reſerved than uſual.

We learn from Turin, that upon the Arrival of two Couriers on the 10th of laſt Month, one from Madrid, and the other from Verſailles, there was a Cabinet Council called, which laſted ſeveral Hours, and as ſoon as it roſe Orders were diſpatched for compleating all the Regiments in his Majeſty's Service to their higheſt Compliment during the laſt War, by the Middle of this Month at fartheſt; and it is ſaid that the ſame Order in all Reſpects has been lately publiſhed at Milan and Modena.

Extract of a Letter from Briſtol, dated May 1.

"The Election for this City ended laſt Night, whereupon the Court adjourned till this Morning, when Mr. Nugent and Mr. Beckford were by the Sheriffs declared duly elected, and about Noon the former was carried thro' the principal Streets of this City, in a very grand Chair, ſupported by twelve Men, amidſt the Acclamations of a great Number of Gentlemen, who walked in the Proceſſion with Yellow and Orange Cockades; and the Evening concluded with Bonfires, firing of Guns, and other Demonſtrations of Joy."

Advices from Spain inform us, that the Diſtreſs of that Kingdom, by the Scarcity of Proviſions which the exceſſive Drought has occaſioned, ſtill continues. The Poor ſuffer greatly. For though many religious Houſes, and particularly the Chapters, have their Granaries well ſtored, and could ſpare enough to ſupply the Neceſſities of the Indigent, they want Charity. To add to the Calamity, the Corn brought from Sicily is ſpoilt in the King's Magazines for want of being ſtirred and aired; yet they are obliged to uſe it for making Bread for the Hoſpitals and thoſe Parts of the Country where the Diſtreſs is greateſt.

May 7. On Saturday two French Officers, Natives of Britain, were brought to Town from Briſtol by a Party of Dragoons, and lodged in the Tower, for enliſting his Majeſty's Subjects into the Service of the French King.

It is obſerved, that in the enſuing Parliament, there will be a far greater Number of Merchants and trading Gentlemen than ever appeared in the Houſe of Commons; a Circumſtance which muſt redound greatly to the Intereſt of theſe Kingdoms.

May 9. *It appears by the laſt Letters from Madrid, that they ſtill expect to ſee ſomething done this Seaſon by their Naval Forces in Conjunction with the Toulon Squadron, though all their Speculations on that Head amount as yet to nothing better than crude Conjectures. However, theſe Letters take Notice of a whimſical Practice very common with the Spaniards, which is, to bequeath Gibraltar to their Children or other Heirs when they make a Will. This ſufficiently ſhews what their Hearts are ſet upon, though it is no Proof that their Court is bent upon recovering that important Fortreſs.*

By Letters from Conſtantinople we have Advice, that on the 16th of March there was ſo great a Tumult in the Janizaries Quarters, that it was feared an Inſurrection would have enſued; but their Aga having ſeized about twenty of the moſt refractory among them, the Tumult was appeaſed. It is ſince ſuſpected that there are ſome factious Fellows in that Corps, who being diſcontented with the pacific Syſtem of the Porte, endeavour to bring about a Change of Meaſures; but it is doubted whether they will be able to carry their Point, as the Grand Signior reſolves to keep Peace in his Time. However, they ſuſpect that the Fire, which happened a few Days before in the Armenians Quarter, was not purely accidental.

We hear that the Parliament will certainly be called together by Proclamation for the 13th *of June next, to chooſe a Speaker, &c.*

Tueſday at Four a Clock ended the Poll for this City, immediately after which the Sheriffs caſt up the Poll Books upon the Huſtings, and the Right Honourable the Lord Mayor being ſent for, the Sheriffs declared in his Preſence that the Election had fallen upon Sir John Barnard, Slingſby Bethell, Eſq; Sir Robert Ladbroke and William Beckford, Eſq; who were declared duly elected. The Number of Livery that polled at this Election was 5931.

This Morning the India Company received Advice that the Delaware, from Madras, is arrived at Lemington. Captain Abraham Dominicus, who went out Commander of her, died on the Voyage.

By this Ship we have the good News, that Major Lawrence has obtained a compleat Victory over the French near Fort St. David, having entirely routed their Army, made great Slaughter, took all their Baggage, Cannon, &c. and made 130 *Priſoners, amongſt them ten Officers. On his Side the Loſs very trivial.*

All the Outward bound Indiamen were arrived at their reſpective Ports, when this Ship ſailed, in October laſt.

According to ſome Letters received by Yeſterday's Mail, the Toulon Fleet has been reinforced by ſeveral Men of War and Frigates from Breſt and Rochefort; and that at the Time when it was thought the Dey of Algiers was ſincerely diſpoſed to give the French King compleat Satisfaction, Advice came of ſome new Hoſtilities committed againſt the French. If this Report be confirmed, the Toulon Squadron may ſtill viſit Algiers.

May 11.

Extract of a Letter from Paris, May 1.

"A Judgment may be formed of the Principles of this Court, with Regard to the Affairs of the Times, by the following Extract of a Sermon lately preached by Father Langier, a Jeſuit, before the King.

Infidelity tends to ſap the Foundation of the royal Authority, by introducing and favouring Syſtems that are directly contrary to it. A certain Jealouſy, which is inſtilled into Man by that Liberty which he ſeems to be born with, makes him bear with Impatience the Yoke of Authority. Hence thoſe Errors, which have been ſo often repeated, that all Authority is derived from the People; and that as the People granted it, they have a Right to demand an Account of it. Religion (that is, the Clergy) on the contrary, by repreſenting to us in our Maſters the Image of the Divinity, and by ſubjecting us to them, can alone eſtabliſh their Power. Let our Maſters, then, make Religion reign in its Turn, by cruſhing Infidelity (that is, the Parliament) the fatal Source of the Syſtems of Independency, which have been always overturn'd by Religion (the Clergy again) though too often renewed in our unhappy Times.

Thus it is that they mix the Poiſon of Eccleſiaſtical Deſpotiſm with the Maxims that favour temporal Deſpotiſm; and impudently preſent the inchanted Cup to the weak Monarch, who readily ſwallows it. What charitable Counſels do they give him, and with what Readineſs does he follow them!"

We have long endeavoured to turn the Attention of our Readers towards the North; for the future we ſhall ſpare them that Trouble, as the Diſturbances there will produce Noiſe enough to compel their Regard without our Admonitions.

'Tis ſaid the French have not ratified the Agreement with our Eaſt-India Company, but have ſent it back, requiring farther Conditions: This greatly ſhews an Intention of Delay, and that they expect better Terms, upon the Succeſs of their 2000 regular Forces who paſſed the Cape in November laſt, and alſo the conſiderable Armament and Ammunition which they this Year ſhipped from France for Eaſt-India. The late News of our Succeſs in a Skirmiſh with the French and Indians, did conſiderably raiſe the Stock, which has ſince had a much greater Fall, and without Doubt muſt; for Trade carried on by Fighting can bring but little Profit to the Merchant.

Many Letters confirm what was lately mentioned of the great Victory Major Lawrence had obtained over the French near Fort St. David's: That brave Officer received two Wounds, but not mortal. When the laſt Letters came away, he was in a fair Way of doing well.

The Elizabeth, a Country Trader, belonging to the Eaſt-India Company, is burnt off the Moluccas: The Cargo loſt, and ſome of the Crew.

We hear that two Commands are to be ſent from the Royal Regiment of Artillery at Woolwich next Month, one for Newfoundland, and the other for Nova-Scotia.

We hear the Toulon Squadron will divide in a certain Latitude, one Part of which is to maintain the Dignity of the French Flag in the Mediterranean and Levant, and the other to ſail for Cape-Breton, where there are already ſix Ships of the Line.

An Extract of a Letter from Amſterdam, dated May 2.

"We are under ſome Alarm here on Account of a Negotiation which is ſaid to be ſecretly carrying on between the Court of Berlin and Vienna, in which the Aim of the former is to obtain Leave to introduce into the Low Countries the Goods brought home by the Embden Company upon certain Advantageous Conditions; which might be a Means of reviving indirectly the Oſtend Company in that of Embden, which would then be ſupplied by the Inhabitants of Flanders and Brabant with ſuch Goods to ſend to the Eaſt-Indies, as they were before obliged to take from us. This ſecret Negociation greatly embarraſſes our Eaſt-India Company, and, on the other Hand, ſome Coldneſs has been obſerved lately between the Courts of Verſailles and Berlin, the latter having diſcovered ſome Proceedings of the French Miniſtry, with which it ſeems much diſſatisfied."

We hear that the Right Honourable the Earl of Albemarle will ſhortly return to England.

The Officer made Choice of by the French to command their Squadron, now ready to be put to Sea, is a Gentleman as well acquainted with their Affairs in America, and has been as active in promoting them, as any Man in their Service, and for this very Reaſon, it has been much doubt-

ed

ed, whether the Publick has had any juſt Account of the Aim and Intention of this Expedition, of the Succeſs of which they entertain very ſanguine Hopes at Verſailles.

Edinburgh, April 22. *Laſt Friday the Great Gun, called Mons Meg, was carried from the Caſtle to be put on board a Veſſel for London. The Weight of this Piece is ſo prodigious, that ſhe twice broke the Carriage, and they are now employed in remounting it, in order to convey her to the Harbour. She is near two Feet in Diameter in the Bore, and weighs about 4000 Stone.*

Dublin-Caſtle, May 10. *This Day, between Twelve and One a Clock, his Grace the Duke of Dorſet ſet out from the Caſtle in the uſual State, upon his Return to England. His Grace was attended to the Water-ſide by the principal Nobility and Gentry, and followed by a numerous Concourſe of People, who with the loudeſt Acclamations, expreſſed their earneſt Wiſhes for his ſafe Voyage and happy Return to this Kingdom. The Quays on both Sides the River, from George's Quay to Ringſend Point, were alſo crowded with People, where the like Acclamations and Expreſſions were univerſally repeated. From the Place where his Grace went on board the Ringſend Barge, to the Yacht, the Water was almoſt cover'd with Barges and Boats fill'd with Gentlemen, and the moſt conſiderable Citizens, who accompanied his Grace ſeveral Miles out to Sea. The Coaches of the Noblemen and Gentlemen who went in the Proceſſion, extended from the Caſtle, beyond the Place on George's Quay, where his Grace took Water; and there never were greater Demonſtrations of Reſpect ſhewn by all Ranks and Degrees of People, than upon this Occaſion.*

May 18. *By our ſcandalous and ſhameful Neglect of Tillage, at leaſt Three Fourths of the Corn made Uſe of in our Bread and Malt Liquors are made and brew'd with Foreign Grain, from the moſt diſtant Parts of Europe, and even from America, whilſt the Poor Manufacturers and Labourers are ſtarving, and obliged to go Abroad for Want of Employment to Fight againſt their King and Country.*

WILLIAMSBURG, June 20.

Laſt Night were brought to the Publick Goal in this City, the three Men that murdered Capt. Curtis, in the Bay, and ran away with a Veſſel belonging to Mr. Patrick Creagh, of Maryland; and we hear they are to be tried for Piracy.

June 27. On Monday laſt arrived in this City, Colonel Innes, who left the Remainder of the Carolina Troops on their March to Hampton, where it was expected they would arrive laſt Night. Colonel Innes left this on Tueſday, and proceeded by Land for the Ohio, to take upon him the Command of all the Troops aſſembled upon this Expedition.

This Morning one hundred Stand of Arms, with Ammunition, &c. were ſent from this Place for Hampton, there to be ſhipped for Alexandria, for the Uſe of the North-Carolina Forces, who, we are told, will amount to upwards of four hundred Men.

ANNAPOLIS, July 11.

About a Fortnight ago, they had a prodigious Freſh came down Potowmack, which overflowed a great Part of the Sugar Lands, and did conſiderable Damage.

Sunday laſt, as four Perſons were endeavouring to croſs the Falls of Patapſco in a Canoe, ſhe overſet, by which Means one ----- Fell, Maſter of a Family, and a Daughter of Emanuel Teal's, about 13 Years of Age, were both drowned.

BOSTON, July 8.

We have Adive by Letters from Falmouth in Caſco-Bay, of the 2d and 4th Inſtant, That the Tranſports were all got in well, and the Soldiers all in Health: That they there met with Forty-two Indians, Twenty-ſeven of which were Males, chiefly of the Norridgewock Tribe: That on Friday the 28th ult. his Excellency our Governor was pleaſed to open the Treaty with them; and the Day following let them know his Deſign and Reſolution of building a Fort on Teutonick Falls; which the Indians on the Monday following objected to; but after further Conference they took the Matter again under Conſideration, and the next Day declared, That they were willing the Governor ſhould build a Fort according to his Deſire; and that he might do it where he pleaſed on Kennebeck River; and that the Engliſh might ſettle their Lands, which they had fairly purchaſed, without any Moleſtation from them: That the Indians diſcover a very peaceable Temper, and ſeem very deſirous of continuing in Friendſhip with the Engliſh: That on the 3d Inſtant the ſaid Indians had a great Dance, and the next Morning departed Home well ſatisfied: That on the Friday before, the Governor ſent an Expreſs to St. George's, to invite the Penobſcutts, and that they have ſince had certain News that they were coming, and were daily expected.

A Veſſel which arrived here laſt Week from Bermudas, was in her Paſſage a few Days ago ſtruck by Lightning off Cape-Hatteras, which ran down the Maſt, and ſtove a Hole thro' the Deck, and ſtruck down two of the Men, who lay ſtunn'd for ſome Time; one of them had the Skin on the back Part of his Head ripp'd from the Skull, and was ſcorch'd on his Back quite down to his Waiſtband; but upon being let Blood they both recovered ſoon after.

By a Letter from Frankfort, on Kennebeck River, dated the 17th of June paſt, we have the following very remarkable Account, viz. That a few Days before the Date of that Letter, as Obadiah Albee, and his Brother, with one Traſk, were going down Sheepſcut River, in a large Canoe, they eſpied a Bear in the Water, at which they diſcharged a Gun, and wounded her, but not mortally, for ſhe immediately made up to the Canoe, and Albee's Brother ſtruck at her with an Ax, but miſſing his Blow, ſhe catch'd hold of his Arm and pulled him overboard, where he was ſoon drowned: After this ſhe got into the Canoe, and ſeizing Obadiah Albee, tore him very much; but at laſt he and Traſk got into the Water, and ſwam towards the Shore, but obſerving the Bear had left the Canoe, they return'd and endeavour'd to recover it; but Albee being much wounded was drowned before he could reach it.--------This Obadiah Albee was ſome Time ſince tried for his Life in the County of York, for killing an Indian at Wiſcaſſet.-----Traſk with Difficulty ſaved his Life by ſwiming to the Shore.

NEW-YORK, July 15.

From Albany we are told, That the Treaty ended there, in Favour of the Britiſh Intereſt, the latter End of the Week before laſt, and that ſeveral of the Gentlemen who aſſiſted therein, deſigned to viſit the Mohawks Country, being thereunto invited by ſundry of the Mohawk Chiefs.

By a Veſſel from the Iſle of May, arrived here ſince our laſt in 32 Days, we are told, That Capt. Corne, in the Sloop Sarah and Elizabeth of this Port, had put into that Iſle a ſhort Time before ſhe ſailed, having been chaced off the Coaſt of Africa by a large French Veſſel of Force, after he had been at Anchor ſome Days, made Purchaſe of a valuable Cargo, and was endeavouring to get it on board. Capt. Corne, who loſt his Boat and two Anchors in endeavouring to eſcape, reported on his Arrival in the Iſle, that Capt. Keteltas, who ſails out of London in a Brig, was taken a little Time before he arrived on the Coaſt, by the above French Veſſel, after a ſhort but ſmart Engagement, in which he had five or ſix of his Hands killed, and he afterwards carried to one of their Settlements.

Laſt Night Capt. Heighington, of the Brig Nancy, of Briſtol, arrived here in 20 *Days from St. John's, in Newfoundland: He informs us, that two Rhode-Iſlanders were juſt arrived there; and that about* 8 *Days ago, he ſpoke with a Sloop from Madeira, bound for Piſcataqua.*

THE drawing to begin on the 22d day of July next, or sooner, if sooner full, in the presence of at least three of the managers, and as many of the adventurers as shall think fit to attend, and continue drawing till finished.

A list of the prizes to be published in the publick papers as soon as the drawing is compleated, that the fortunate may know the fate of their tickets.

The money to be paid to the fortunate, as soon as the drawing is finished, the sum of Fifteen per Cent. being first deducted.

The managers appointed are Sebastine Neff, George Donnenhaver, Jacob Miller, Charles Hay, Jacob Beyerle, and Matthias Gainsele, who are to give bond, and be upon oath for the faithful discharge of their trust.

The tickets will begin to be sold by the managers, at their respective dwellings on Friday the 7th of September inst.

We hope a design of this kind will meet with encouragement, as the only motive that induced the society to enter on such a scheme, was their being thoroughly sensible of the disadvantages they labour under, and the great necessity there is of a house in Germantown, for their minister to instruct those children in reading and writing, whose parents are unable to give them such education; and as the society amongst themselves are unable to accomplish such an undertaking, were importuned to have recourse to a lottery, in order to enable them to carry on the same, as it will tend to the publick good.

N. B. The drawing to be fixed in such manner that in the first 4746 tickets in every seven following numbers there shall be two prizes certain; and in the remaining 254 in every four following numbers shall be one prize certain; so that any adventurer upon purchasing seven following numbers cannot possibly lose but two Pieces of Eight, and the Fifteen per Cent. of the two prizes, that is, setting the case he gets the lowest prizes, tho' nevertheless at the same time he stands as fair a chance for any of the higher prizes, as in the drawing of any other lottery.

☞ The managers hereby give notice to such of the adventurers as have not purchased seven following number'd tickets, to come and return them on or before the 10th of July, that they may either receive their money back, or have their compliment of tickets made up to them, in order to make the whole agreeable to the above additional scheme or method of drawing.

There is nothing now but these scatter'd single tickets that causes the drawing to be put off; wherefore the publick may be assured that it will certainly commence at the time now above appointed.

Tickets in the above lottery are also to be had at Mr. Daniel Benezet's, and Mr. Alexander Huston's.

Wilmington, May 20, 1754.

WHereas several persons, many years past, have taken from the trustees of the Swedish congregation, several lots or parcels of ground, in Wilmington, in the county of New-Castle, by leases for ever, with conditions therein mentioned, for the said tenants, their heirs and assigns, to build on said lots, in a certain time therein mentioned, or said leases to be void, and also paying a yearly rent to said trustees, and their successors, for the same; which time limited for the said buildings, are long since expired, by means whereof many of the said leases are forfeited, and their remains due to the said trustees, a large arrear of rent for the same. And whereas the said trustees did, by leases, lett several other lots or parcels of ground to several persons at the yearly rents therein mentioned, many of which tenants, their heirs or assigns, have neglected to pay the yearly reserved rents, by means whereof there is a large arrear due to the trustees of the said congregation for the premises last mentioned: This is therefore to give notice to the said tenants, their heirs or assigns, and to all persons claiming a right to the several lots and premises aforesaid, or any part thereof, that unless the several arrears of ground-rent aforesaid be paid without delay, to Henry Colesbery and Andrew Tranberg, the present trustees; and unless the persons that claim a right to those leases, which are void, by the covenants therein not being perform'd, come to Wilmington and renew the said leases with the said trustees, before the first day of August next ensuing the date hereof, that then the said trustees will, without further delay, take such method as the law directs for recovery of the rent and possession of the said premises. *Henry Colesbery, Andrew Tranberg.*

The said fish are to be sold by no other persons than George Spafford, in Water-street, the corner of Chestnut-street, or said Broadfield, at Trenton.

N. B. Whereas one William Pancoast, of Bordentown, the last season, having my brand at his house, branded a parcel of kegs with the said brand, which has given me great reason to believe it was done with an intent of imposing his fish for mine, therefore I have thought proper to inform the publick, that they might not suffer by such a deceit; and if the said William Pancoast shall be prov'd to offer any of the said kegs, in my name, to sale, or any other person for him, will be prosecuted as the law directs.

The Royal Patent Medicinal Powder as SNUFF, which is well known to have cur'd many thousands in most distempers incident to human nature, is, by appointment of the Patentee and Company, to be sold by

CHRISTOPHER MARSHALL,

At the Golden Ball, in Chestnut-street, who is their only agent to vend the same, and no other in Philadelphia.

THIS excellent medicine absolutely operates on the head as a purgative and stimulator; on the stomach and lungs as an attenuator and dissolvent; and on the blood and juices as an alterative.

It has been imagin'd by some, that in cold or bad weather, this medicine is liable to give cold, because a very little stoppage sometimes is in the Passage to the Nostril, which is only the disorder working off; but in moving about in business, it clears that passage continually by its discharge, and on our faithful words no cold can be catch'd, or ever has by this medicine, but quite otherwise, as we pledge our character to this assertion; and that it cures the greatest colds, and the tribe of disorders they bring with them, in the worst of weather, therefore is of great service in the winter, as it absolutely cures the asthma, phthysic, &c. giving immediate relief, if ever so bad; quinsies and imposthumes immediately cur'd. If we have fail'd in any case, we are ready to finish all such cures in London gratis, or stand condemned.

SAMUEL MAYOR, Bishopsgate.

N. B. After a few fifteen penny papers regularly taken, in general it gives Health for some years; and we appeal to the great many, and it may be observ'd, the weekly and yearly bills have decreased, as in the year 1752, 544, and in the last year, 1753, 1209 less than the year before, and it is imagin'd this powder, as snuff, has been the greatest contributor. And if you take but one pinch a week, not any thing so likely, or so certain to prevent the greatest epidemical distemper being catch'd; and if any such misfortune as its breaking out in this kingdom, one fifteen penny paper of the medicinal snuff taken at one time, is almost certain to save or cure, as the operation is immediate, but must proceed on as they see occasion. There has been much sold in places where this distemper generally is, and we have been inform'd was a present cure.

*** *The above nam'd Christopher Marshall continues to sell Turlington's balsam of life, Bateman's drops, British oil, Daffy's elixir, Stoughton's elixir, Squire's grand elixir, Hooper's female pills, Locker's pills, Scots pills, Bannister's drops, Schwanberg's fever powder, and liquid shell, Godfrey's cordial, right French, Hungary and lavender water; with a great variety of drugs, medicines, dye stuffs, &c. with oils and colours for painting, varnishing and japaning; cinnamon, cloves, mace, and Weston's snuff, wholesale and retail, as usual, at the lowest rates. He gives the best price for snakeroot.*

The PENNSYLVANIA GAZETTE.

Containing the Freſheſt Advices, Foreign and Domeſtick.

PHILADELPHIA, July 25.

Before we publiſhed our laſt, there were ſeveral Letters in Town, giving an Account of an Engagement, ſaid to have happen'd the Beginning of this Month, between the Engliſh *and* French, *near the* Ohio, *much to the Diſadvantage of the former; but as theſe Letters differ'd, and no Expreſs had arriv'd with the News, we choſe to defer inſerting any Thing relating to the Affair, till we could do it with more Certainty; and we are now ſorry to ſay it, the Particulars came to his Honour our Governor on* Friday *laſt (but too well atteſted) in a Letter from Colonel* Innes, *dated at* Winchester, *in* Virginia, *which is as follows, viz.*

HONOURED SIR,

HAVING Notice of a Perſon going to your Province immediately, I thought it proper, on this Occaſion, to give you a ſhort Detail of what hath lately happen'd.

After having regulated the March, and the Tranſportation of the *North-Carolina* Regiment, I immediately proceeded to *Williamſburgh*, and by my Commiſſion from Governor *Dinwiddie*, as Commander in Chief of this Expedition, I ſet out for *Winchester*, where I arriv'd the 30th of *June*, in order to take the Command upon me, and to bring up the *New-York* two Independent Companies, with thoſe of the *North-Carolina* Regiment, then upon their March from *Alexandria* for this Town. Colonel *Waſhington*, with the *Virginia* Regiment, and Captain *M'Kay*, with the *South-Carolina* Independent Company, together, did conſiſt but of Four Hundred Men, of which a good many were ſick, and out of Order.

On the third of *July* the *French*, with about Nine Hundred Men, and a conſiderable Body of *Indians*, came down upon our Incampment, and continued to fire, from all Quarters, from Eleven in the Morning till Night, when the *French* call'd out to our People, they would give them good Conditions, if they would capitulate, a Copy of which I here incloſe you.

After the Capitulation the *French* demoliſhed the Works, and in ſome Time after retir'd to the *Ohio*, taking two Captains as Hoſtages along with them. We all know the *French* are a People that never pay any Regard to Treaties longer than they find them conſident with their Intereſt; and this Treaty they broke immediately, by letting the *Indians* demoliſh and deſtroy every Thing our People had, eſpecially the Doctor's Box, that our Wounded ſhould meet with no Relief. In this Action it is ſaid we had about 100 Men kill'd and wounded, a Third whereof ſuppoſed to be kill'd; and it is reported we kill'd double the Number of the *French*. If this does not alarm the neighbouring Governments, nothing can; and I make no Doubt but the *French* will ſoon claim this fine Body of Land as their Right by Conqueſt, if we do not immediately raiſe a ſufficient Force to convince them of the contrary. What I can learn of their Force, is, that they had 700 Men in their firſt Diviſion, 800 in the next, and 500 in the laſt, not as yet join'd; which, with their *Indians*, make a conſiderable Body.

Colonel *Waſhington*, and Captain *M'Kay*, told me, there were many of our Friend *Indians* along with the *French*, ſundry of which came up, and ſpoke to them, told them they were their Brothers, and aſk'd them how they did, particularly, *Saſquehanna Jack*, and others, who diſtinguiſhed themſelves by their Names; and it is alſo ſaid, that ſome of the *Delawares* were there. We had not an *Indian* to aſſiſt when the Engagement commenced or ended.

It is my real Opinion, that nothing will ſecure to us the *Indians* now in our Friendſhip, if we allow ourſelves to be baffled by the *French*; as it is very natural and common for a more polite People than the *Indians* to ſide with the ſtrongeſt: So that there is a Neceſſity either to go into the Affair in Diſpute heartily at once, or to give it up intirely. I am,

SIR,

Your moſt obedient Humble Servant,

Winchester, July 12, 1754.

JAMES INNES.

CAPITULATION,

Granted by Monſieur De Villier, *Captain and Commander of Infantry and Troops of his Moſt Chriſtian Majeſty, to thoſe* Engliſh *Troops actually in the Fort of* Neceſſity, *which was built on the Lands of the King's Dominions,* July *the third,* 1754, *at Eight a Clock at Night,* viz.

As our Intentions have never been to trouble the Peace and good Harmony which reigns between the two Princes in Amity, but only to revenge the Aſſaſſination committed on one of our Officers, Bearer of a Citation, as appears by his Writing; as alſo to hinder any Eſtabliſhment on the Lands of the Dominions of the King my Maſter; upon theſe Conſiderations, we are willing to grant Protection or Favour to all the Engliſh *that are in the ſaid Fort, on the Conditions hereafter mentioned.*

ARTICLE I.

WE grant Leave to the *Engliſh* Commander to retire with all his Garriſon, and to return peaceably into his own Country; and promiſe to hinder his receiving any Inſult from us *French*; and to reſtrain, as much as ſhall be in our Power, the Savages that are with us.

II.

It ſhall be permitted him to go out, and carry with him all that belongs to them, except the Artillery, which we keep.

III.

That we will allow them the Honours of War, that they march out with Drums beating, and a Swivel Gun, being willing to ſhew them that we treat them as Friends.

IV.

That as ſoon as the Articles are ſigned by both Parties, the *Engliſh* Colours ſhall be ſtruck.

V.

That To-morrow, at Break of Day, a Detachment of *French* ſhall go and make the Garriſon file off, and take Poſſeſſion of the Fort.

VI.

As the *Engliſh* have but few Oxen or Horſes, they are free to hide their Effects, and to come again and ſearch for them, when they have got a ſufficient Number of Horſes, &c. to carry them off, and that for this End they may have what Guards they pleaſe; on Condition, that they give their Word of Honour, not to work upon any Buildings in this Place, or any Part of this Side the Mountain, during the Space of one Year, to commence from this Day.

VII.

And as the *Engliſh* have in their Power an Officer, two Cadets, and moſt of the Priſoners made in the Aſſaſſination of the Sieur *De Jamonville*, they muſt promiſe to ſend them back, with a Safeguard, to the Fort *Du Guerne*, ſituated on the *Fine River*: And for Surety of their performing this Article, as well as the Treaty, Mr. *Jacob Vambram*, and *Robert Stobo*, both Captains, ſhall be kept as Hoſtages, till the Arrival of the *Canadeans* and *French* above mentioned. We oblige ourſelves, on our Side, to give an Eſcort to return in Safety theſe two Officers; and expect to have our *French* in two Months and a Half at fartheſt; a Duplicate of this being fix'd upon one of the Poſts of our Blockade the Day above nam'd.

CON. VILLIER.

PARIS, April 15.

THEY talk of forming ſeveral Camps this Summer, in the ſame Manner as they did laſt Year; and that, amongſt others, there will be one in the Franche Compte, and another in Alſace; and 'tis even ſaid, that Count Argenſon, Secretary at War, has already prepar'd a Liſt of the Regiments of which each Camp is to conſiſt.

Madrid, April 2. The continued Drought of ſo many Months, is at length ſucceeded by plentiful Rains, which has occaſion'd inexpreſſible Joy, not only in this ſuffering Capital, but in every Province of the Kingdom.

Berlin, April 16. Mr. Wolfius, the celebrated Profeſſor of Civil Law and Mathematicks in the Univerſity of Halle, died the 9th Inſt. aged 76.

Naples, April 2. An Hundred Volumes of Greek Manuſcripts have lately been diſcover'd in the Ruins of Herculaneum, done upon Vellom, and extremely well preſerv'd. His Majeſty has appointed a Number of Gentlemen, well verſed in the Greek Language, to examine theſe Manuſcripts, which, it is not doubted, will produce ſome choice Monuments of Antiquity.

Genoa, April 9. We are aſſured, by the laſt Accounts receiv'd here from Corſica, that the Malecontents are receiving Strength every Day, which gives the Government ſome Uneaſineſs.

Moſcow, April 2. The ſeveral Colleges being aſſembled, they took into Conſideration the Forming a new Body of Laws, and the Abridging the Forms of proceeding in the Courts of Juſtice. Orders are iſſued for reinforcing our Navy with ſixty new Galleys. Freſh Troops arrive every Day in Livonia, and the conquer'd Provinces.

Hamburgh, April 18. The Regency of this City, to ſhew their Approbation of the Conduct of Mr. Klefeker, in executing the Commiſſions he was charged with to the Courts of Madrid and Verſailles, have preſented him with a Thouſand Ducats. An Engliſh Ship, with a valuable Cargo, is ſunk at the Mouth of the Elbe near Cuxhaven; but the Crew, and Part of her Cargo, are ſaved.

Warſaw, April 16. A few Days ago, a Gentleman of a neighbouring Village was executed here, for the Murder of his Wife, whom he ſtrangled in a Fit of a Jealouſy.

Hague, April 28. The ſeveral Provinces of this Republick have it at preſent under their Conſideration to ſettle Things upon a proper Footing, in caſe the Princeſs Governante ſhould die before the Prince Stadtholder comes of Age.

Paris, April 26. Madame la Dauphine is now actually in the fifth Month of her Pregnancy, and enjoys a perfect State of Health.

Florence, April 13. If one may credit ſome private Letters from Rome, the Pope has reſolv'd to take two Swiſs Regiments into his Pay, and employ them to garriſon the Citadel of Ferrara. Thoſe Letters even pretend, that his Holineſs has not only demanded of the Catholick Cantons, the neceſſary Licences for raiſing theſe two Regiments, but has alſo aſſigned a proper Fund for maintaining them.

Paris, May 4. The Dutcheſs of Penthievre, after bearing three Months a painful Diſtemper with great Fortitude and Reſignation, was delivered of a Prince the 29th of laſt Month, in the ſeventh Month of her Pregnancy, and the next Day ſhe died, aged Twenty Seven Years, Six Months, and Four Days. She was a Daughter of Francis-Mary d'Eſt, Duke of Modena, and of Charlotte Aglae of Orleans. In December 1744, ſhe was married to Lewis John Mary of Bourbon, Duke of Penthievre, High-Admiral of France, the Iſſue of which Marriage was five Sons and two Daughters, of the Sons the firſt, fourth, and fifth, are dead, as is likewiſe the eldeſt Daughter.

Lewis Chauvelin, one of the Preſidents of the Parliament of Paris, died in his Exile at Soiſſons the 29th of laſt Month, in the 49th Year of his Age.

Dublin, May 6. Upwards of twenty Convicts, from the ſeveral Goals of the Kingdom, together with thoſe in Newgate, were indented at the Tholſel, before the Right Honourable the Lord Mayor, for Tranſportation into America.

LONDON, April 18.

Advices from Paris tells us, that many of the Gentlemen of the Law have quitted their Profeſſion for Want of Buſineſs, and obtained Places in the Cuſtom and Exciſe.

Our Advices from Holland take Notice of many fraudulent Lotteries, ſet up in the Names of ſeveral free Cities in Germany, which the States have very wiſely prohibited.

April 20. His Excellency the Duke de Mirepoix, the French Ambaſſador, is ill of a Fever.

April 25. We hear, that the Governor of a certain Iſland in the Weſt-Indies, lately acquainted the Governor of a Spaniſh Settlement, at no great Diſtance, that Acts of Cruelty and Barbarity, ſuch as robbing and ſtripping Men, and then turning them looſe to Starve or Periſh, are ſo pyratical, and ſo irreconcilable to the Honour and Generoſity of the Spaniards, as well as ſo contradictory to the Declarations of the Court of Madrid, that he muſt not be ſurprized if he treated any of their Free-booters that fell into his Hands according to their Deſerts, and as Enemies to Mankind.

April 27. From Liſbon of the 19th ult. they write, that Lord Tyrawley, who arrived there a few Days before in the Falmouth Packet, had had a private Audience of the King, and ſome Conferences with the Miniſters of State; and ſo ſecretly, (ſay they) was his Commiſſion executed, that he was departed before the News of his Arrival had reach'd the Publick.

April 30. Our Advices from the Hague mention, as uſual, frequent Meetings of their great Stateſmen, in which they do little or nothing. Another French Miniſter, it ſeems, has been poiſon'd in Poland; from which Kingdom we are told ſome News of Importance may be ſhortly expected.

May 2. Some private Letters from a Sea Port in France inſinuate, that notwithſtanding all that has been publiſhed to the contrary, ſome Gentlemen of Character, have lately quitted that Country, to avoid the Effects of Eccleſiaſtical Fury, under the Direction of Miniſterial Complaiſance.

The Succeſs and Penzance Men of War are ſtationed, we hear, in New-England, under Commodore Bonſoy.

The Succeſs Man of War, Capt. John Rous, is ordered to be manned, and got ready with all Expedition.

Private Letters from Vienna give us to underſtand, that we may poſſibly ſee a King of the Romans elected before the End of this Year, without any Oppoſition, in caſe Means can be found to make the Court of Berlin eaſy, in Regard to Friezland: But in this Point the Courts of Vienna and H-----r do not ſeem to agree; for when any Potentate is deſired to relinquiſh a good Claim for the Intereſt or Conveniency of an Ally, that Ally ought to make him ſome Compenſation for it.

They write from Hamburgh, that many idle People in that City begin to lay Wagers about the Affairs of the North, and the Generality ſeem to be pretty poſitive that the Election of a Duke of Courland will come on before that of a King of the Romans; and according to their Notions, the Ruſſians are ſo forward in their Preparations this Spring, in order to prevent the former Election. As for the Pruſſians in particular, ſome give them over for loſt, in caſe they venture upon a War; whilſt others are as poſitive that the Court of Berlin may play a fine Game in Conjunction with the French, Swedes, and Turks.

Extract of a Letter from the Hague, dated April 23.

"*Notwithſtanding all the rigorous Edicts againſt the Libels publiſhed daily in Holland, and particularly againſt the Pamphlet, entituled,* "*The Conduct of the Partiſans of the Stadtholderſhip defended*;" *this Piece, which directly attacks the Magiſtrates of Amſterdam, is in every Body's Hands. The Author, after apologiſing in the Preamble for the famous Raap, proceeds to ſhew that the Safety of the State indiſpenſably required the Reſtoration of the Stadtholderſhip. Then follow ſome Paſſages from the moſt celebrated Lawyers and Stateſmen, ſetting forth the Power and Privileges of the People in certain Circumſtances. After which he draws a faithful Portrait of the Republick during the laſt War; and retraces all the Circumſtances which authoriſe the People to put their Hand to the Helm of the State. To prove more ſtrongly that theſe Circumſtances exiſted in 1747, the Author goes back to the Infancy of the Republick under the Stadtholderſhip of William I. and then paſſes to its Adoleſcence under Maurice, and its Manhood under Frederick Henry, in order to evince the Riches and Power of the Republick at home, and its Luſtre abroad, under the Auſpices and Stadtholderſhips of thoſe great Men. William II. being taken out of the World juſt as he was entering on the Regency, is ſcarce known but by filling a Place in the Series of Stadtholders. After his Death the Republick wanted to try to govern by herſelf; and in Fact did Wonders by Sea, under De Wits. But being attacked by Land in 1677, ſhe loſt in one Campaign the Fruits of a War of eight Years, and was reduced to ſuch Extremity, that a Spaniſh Ambaſſador ventured to tell her, A Stadtholder only could ſave her. The People, being of the Miniſter's Opinion, proclaimed William III. and the Safety of the Republick was the Conſequence of their Proclamation.*

"*This manifeſt Advantage of the Stadtholderſhip did not hinder the Magiſtrates of Amſterdam from plotting, in Conjunction with France, againſt the Prince who had ſaved his Country, as the Memoirs of D'Avaux inform the preſent Age, and will inform the moſt diſtant. The Author of the Pamphlet, lays open all theſe incredible Extravagances of the Regency of Amſterdam; and running over the eighteen Centuries from the Death of William III. till the Beginning of the laſt War, he returns to the melancholy Picture he had given of the Republick; and repreſents this Body (which was formerly ſo nervous, active, and vigorous) quite exhauſted, and every Day loſing that Conſideration in which it was held abroad. Without a Fleet, without an Army, without a Barrier, and without Reſource to repair its Loſſes, what Step could it take in 1747? The Regency did not know; but the People did; and lent a Hand to the State, which ſaved it. Had the Proclamation of the Stadtholder been deferred a few Weeks, or, perhaps, only a few Days, the Conſequence would have been a ſhameful Neutrality, which would have proved the Grave of Europe's Liberties.*

"*After challenging every one to diſprove this laſt Aſſertion, the Author enters into two Details, the firſt ſhewing that the bad Situation of the Republick was owing to the Blunders of the laſt Regency; and the other, the Advantages to be hoped for from the preſent Regency, when all the Members of the State, animated by the ſame Spirit, ſhall concur in the ſame Views.*"

Extract of a Letter from Paris, dated April 23.

"*The Reſtoration of the Parliament is nearer at Hand than is generally imagined, and it is aſſured, that three great Prelates, and two great Miniſters, will have all the Honour of effecting this great Work. His Majeſty will publiſh an Edict, enjoining his Parliament to reſume their Functions, and diſcharging them from that Part of their Authority which was entruſted to them upon Oath, and which relates entirely to Eccleſiaſtical Affairs, for the future Management of which Branch of his Authority his Majeſty will eſtabliſh a ſupreme Tribunal on purpoſe. The King, who is naturally pacifick, and but little verſed in theſe Affairs, could not have found out a better Expedient; which is alſo highly approved of by the Dauphin, who is guided in every Thing by the Holy Fathers. From this Turn of Affairs, Confeſſion will be leſs practiſed in France than has been, and People will ſoon be accuſtomed to go into the other World without the Viaticum.*

"*According to our Advices from Genoa, the Revolt of the Corſicans, and of the Inhabitants of San Remo, and laſtly, the preſent critical Situation of Affairs in Italy, ſeem greatly to embarraſs the Councils of that Republick, in which there are conſtantly two Factions, that of the old Nobleſſe, and that of the new, which are ſure never to agree; inſomuch that Propoſals, very prejudicial to the State, are frequently carried by a Majority of Votes, which is ſometimes dearly bought, as may happen to be the Caſe in an Affair now under Conſideration, which is, what Meaſures will be proper for the Republick to take, in Reſpect to the Houſes of Bourbon and Auſtria, in caſe the former ſhould endeavour to alter the preſent*

present System of Affairs in Italy, as several Advices would insinuate. As for the King of Sardinia, his Intention is to continue Neuter as long as he can; but if the House of Austria should be in Danger of being crushed, he would certainly declare in its Favour."

May 11. The King of Prussia has the Honour of being the first Monarch in Christendom that has effected a Reform in the Law, by reducing it into a narrower Compass, and rendering the Administration of Justice much cheaper and more expeditious; since which others have work'd upon his Plan, according as it could be adapted to the Constitution or Customs of their respective Countries: Austria, Naples, Sweden, and Bavaria, have already copied the Example of Prussia, and thereby delivered their Subjects from Swarms of Locusts and Harpies that lived by the Ignorance and Folly of the People, and grew fat under the glorious Obscurity and Uncertainty of the Law: And by the last Advices from Moscow it appears that the Empress of Russia is going to do the same. The French too seem to be sensible of the Necessity of such a Reformation among them; but the present Situation of their domestick Affairs is not favourable for it. Could it be effected there, one might hope to see something of the like Kind take Place in Britain; for as we are so forward to imitate France in Follies and Vices, it might possibly then become fashionable to imitate her in this important and necessary Article.

Extract of a Letter from Plymouth, dated May 7.

"This Evening the Tyger and Cumberland Men of War sail'd for the East-Indies; but as it is since calm, I believe they are anchor'd in the Mouth of the Harbour. I likewise hear that there are three Ships arrived from the East-Indies in the Offing, one for London, supposed to be the Colchester from Coast and Bay, one for Amsterdam, and one for Rotterdam."

Halifax Nova-Scota, June 8.

Thursday the 16th inst. the Settlers of Lawrence-Town set out from this Town, intending to go by Land for that Place, having a strong Guard of 200 regular Troops, exclusive of Officers, commanded by Capt. Stone, with a Number of Rangers; which Place they arrived at the Saturday following, having made a Road from Dartmouth Side to the said Town, which is but little more than 11 Miles Distance from us; they immediately went to Picketing in the Neck, which they compleated in a short Time, and have raised and finished the Block-house, Store-house, &c. and mounting their Cannon; they are also picketing the Town, and have broke up the Soil, which appears to be extraordinary good, and planted a considerable Quantity of Potatoes; they are in high Spirits, and by the favourable Accounts we have since received, we are in Hopes that in a few Years the Settlement will answer our best Expectations.

We hear, the Parliament have granted the Sum of £ 47,000 to this Government for defraying the Charges of the current Year, and £ 11,000 more to make good the Deficiency of the last Year.

June 15. *Last Thursday Evening about 11 a Clock died suddenly of an Apoplectick Fit, John Wynn, Esq; Captain of one of the Companies in the Regiment of Militia in this Town: He had formerly been a Sea Commander in his Majesty's Service; and was Son to the Hon. Sir. Richard Wynn. It is somewhat remarkable, that the Beginning of the same Evening Mrs. Wynn had received a Letter from England, acquainting her, that they were informed that Captain Wynn was dead, and that she was left a Widow in poor Circumstances, but just entering upon a second Marriage, and blaming her Conduct very much in not informing them how her Affairs were, &c. upon the Reading of which Letter Capt. Wynn laugh'd very heartily, and said he would write an Answer which should fully convince them to the contrary, little thinking himself so near his End.*

Yesterday Capt. Russell arrived here in 8 Weeks from London, who informs, that the Honourable Charles Lawrence, Esq; Lieutenant Colonel of Governor Hopson's Regiment, and President of his Majesty's Council, is appointed Lieutenant Governor of this Province.

BOSTON, July 15.

Wednesday last arrived here from Falmouth, in Casco-Bay, the Ship Burreau, Capt. Joseph Inches Commander (in the Government's Service) with several of his Majesty's Council, the Speaker, and divers Members of the Honourable House of Representatives, who attended his Excellency to the Eastward, and were present at the Conference with the Indians. By them we have the agreeable News, that the Norridgwalks and Penobscots readily ratified and confirmed the former Peace, and told the Governor, they had no Objection to his Excellency's building Forts where ever he thought fit; and as a Proof of their Sincerity *(Indian Sincerity)* several of their young Men desired to come and reside amongst us, five of whom are already in Town, and several of their Children are expected in the Fall, for the Benefit of Education. That Major General Winslow, with the Forces under his Command, was gone up Kennebeck River, to build several Forts thereon, and that when he had seen them in great Forwardness, he was to leave a sufficient Number of his Troops to protect the Workmen till they were finished, while he, with 500 more, marched to the Head of the Rivers, where it has been reported the French have erected Forts, and made Settlements: [This the Indians utterly deny.] And if he finds any French settled there, has Orders to warn them off, and if they refuse to obey, then to compel them by Force. And that his Excellency intended to stay at Falmouth some Time longer, to expedite the important Affairs now carrying on in the Eastern Parts.

We hear that our Forces now at the Eastward, amount to about 1000 Men, as likely spry Fellows in general, as ever were raised in New-England.

We have Advice from New-York (at the Eastward) that on the 7th Instant, John Seymour, of that Town, whose Wife had laid in but four Days, forcibly took the Child out of her Arms, ran to the Bridge, and threw it into the River, where it was drowned. The distressed Mother ran after him, crying out to spare the Child; and went up to her Arm Pits in the Water in Order to save it, but in vain, and is since dangerously ill. The Wretch being asked the Reason why he drowned his Child, said, *The Devil bid him do it*; and told his Son, about thirteen Years old, that he knew he should be hanged, but advised him (the Son) to serve God as faithfully as he (the Father) had done the Devil.---It is remarkable that in the Year 1745, this same Man, without any Provocation, on the Lord's Day, cut his Wife's Throat in such a Manner, that he very nearly dispatched her, but the Knife being dull, he could not make clean Work of it before she escaped out of his Hands.

Newport, Rhode-Island, July 10.

Capt. Starr in the Brig Sea-Horse from London, and bound to Connecticut, put in here last Week to land some Goods belonging to several Gentlemen of this Place; among them was a Box of Medicines, and in which Box were two Quart Bottles of strong Spirit of Nitre; in moving the Box, the Corks of the Bottles came out, and the Spirit of Nitre ran among some Hay which was put between the Bottles, and set it on Fire, producing actual Flame in the Presence of several Persons of good Credit; who are all persuaded, that if the Accident had happened at Sea, and not timely discovered, the Vessel must have been burnt.-----This shews what great Care is necessary in the Packing and Stowing on Ship-board, this, or any other chymical Preparation of the like Quality.

NEW-YORK, July 22.

Tuesday last arrived here in Health, from Albany, the Honourable JAMES DE LANCEY, *Esq; as did the Gentlemen Commissioners from Pennsylvania, the next Day.*

Mr. RICHARD PETERS, *of Philadelphia; that in the Morning from the First Epistle of Timothy, first Chapter and nineteenth Verse;* Holding Faith and a good Conscience; *And that in the Afternoon, from the second Chapter of St. Luke, and Fifty-second Verse;* And Jesus increased in Wisdom and Stature, and in Favour with God and Man. *His Audiences were great, and the Sermons universally approved of.*

E. of Sandy-Hook, in a Schooner, belonging to New-Brunswick, bound for Barbados, all well also.

We can assure the Publick, that the Report of a French Fleet being at Cape-Breton, is without the least Foundation, as a Gentleman who left that Place about 20 Days since, informs us, that very few Vessels of any considerable Force were then there; that their Fortifications for some Time past have been in a very ruinous Condition; but that 500 Masons, and other Artificers, were soon expected there from Old France, in order to erect some new Batteries, repair the old Ones, and strengthen the Walls of that City.

Besides what is mentioned in Colonel Innes's Letter, in the Beginning of this Paper, there is another in Town, wherein it is said, that a Gentleman had arrived at Winchester, from North-Carolina, with Advice, that the two Companies who were on their March from that Place, to join the other Forces, were countermanded, the Governor having Advice, that the French were erecting Forts near the Back Parts of that Province. And that another Gentleman had come there from the South Branch of Potowmack, who informed, that many of the Back Inhabitants were coming down to Winchester with their Effects, for fear of being cut off by the Indians; and that in general they were in the utmost Consternation.
